Grading System:	Additional Program Specific Gradi	ng Information:
A 90 - 100%	Course Tests	100%
B 80 - 89%	Clinical Rotation	Pass/Fail
C 70 - 79%		
D 60 - 69%		
F 0-59%		
I Incomplete		
Evaluation Methods:	Teaching Strategies:	
<u>Theory:</u> Unit tests	Lectures	
• Grading Criteria: Passing grade for all courses is 70%.	Narrative pedagogy	
(Note: assignments/projects will be incorporated into the	Class discussions	
unit test grade)	Audiovisuals	
	Critical thinking scenarios	
Clinical Evaluation Method: Satisfactory demonstration of	Lab exercises/Simulation	
clinical competencies	Clinical Practice	
• Grading Criteria: Satisfactory performance of nursing skills.	Small group activities	
See Clinical Guidelines Handbook.	Remedial activities	
Grades are not rounded up. See Practical Nursing Student		
handbook and Clinical Evaluation Guidelines for Grade policies.		

Practical Nursing Program Rules:

ALSO PLEASE SEE PN HANDBOOK

FOR GRADING CRITERIA (with course components), CLINICAL EVALUATION TOOL, FINAL RECORD FOR REQUIRED THEORY, LAB AND CLINICAL HOURS, PROGRAM PROGRESSION, ATTENDANCE, DRESS CODE and CELL PHONES.

- 1. ACTIONS: At all times (class and clinical), you must treat peers, instructional and non-instructional staff, clinical and nonclinical personnel, with respect at all times. Disrespectful behavior will not be tolerated and is considered a serious breach of professionalism. This includes body language. If a student's actions or conduct are judged to have a detrimental effect on personnel by the school, participating hospital or clinical agencies the student may be dropped from the program. Consequences will include: verbal warning, parent notification, conference, administrative referral. Insubordination, verbal or physical fighting and any other severe offenses will result in automatic administrative referral.
- 2. **ASSIGNMENTS:** All assignments given are to be done on time and turned in at the beginning of class to pass the course. While material discussed in class is emphasized on the tests and quizzes, assigned reading, virtual clinical and case studies are also content that may be tested. Pre-reading is highly recommended to enhance your understanding of the topic.

Clinical competency reports are due on the same day unless the clinical instructor gives specific homework (no exception). Assessment preparation: remediation assignments such as case studies and practice quizzes are required and are assigned to assist students to be successful in their program. **Projects: Due on expected date.**

A broken printer or no ink cartridge is not an acceptable excuse. If you have legitimate printer/computer issues, handwrite it <u>using black or blue ink (no pencil!)</u>, and write legibly. If these requirements are not met, a letter grade <u>deduction will be applied</u>. In health care assignments must be done on time; it may be a matter of life and death.

3. **LABORATORY/CLINICALS:** Will be assigned by your instructor. You are expected to report to the area you have been assigned, on time, in full uniform, with all necessary supplies 100% of the time per program policy. Reporting late and/or leaving early may prevent you from receiving a lab grade for the day and interfere with your evaluation for

competency. Each clinical/laboratory experience must be passed. In the lab. You will be given 3 attempts to successfully pass a skill. It is beneficial for you to practice to gain proficiency in skills before clinical rotations to ensure patient safety.

- 4. **QUIZZES/EXAMS:** Assessments may be cumulative in nature. It is important to maintain a neat organized notebook/flashcards to study from. Do not cram for exams the night before. Develop good study habits so that you will perform well. Questions will require critical thinking to prepare the student for the NCLEX exam. All exams will be graded in a timely fashion and reviewed in class. If you miss a review, then you must schedule an appointment with the instructor within 48 hours. CELL PHONES will be collected during any quiz/test.
- 5. **CHEATING:** Cheating is to obtain information from any source other than those prescribed by the teacher for the specific assignment. It will not be tolerated under any circumstance. Some examples include:
 - cheat sheet
 - copying someone else's work
 - talking during a test
 - plagiarism
 - a student providing information is considered as guilty as the student receiving the information

Consequences will include parent notification and a zero on the assignment.

6. **ATC is a non-smoking campus. No smoking** in the clinical areas- this includes hospital lobby, parking lot, entrances to community agencies, etc.

View Your Grades:

3.

Grades can be viewed online by following the directions below:

- Go to Broward Schools Single Sign-On (SSO) Website link: <u>http://browardschools.com/sso</u> and enter your credentials:
 - Username: 10-digit student ID number
 - Password: PMM/DD/YYYY (initial password will start with a P and will follow your birthday with slashes). You can then change your password after your initial login.
- 2. Click on the FOCUS app on your Launchpad. If this app is not on your Launchpad, then:
 - Click on the "Request Center" tab and *add* the FOCUS app to your Launchpad.
 - Access FOCUS through your SSO launchpad each time.

Course Number: PRN0098

Course Name: Practical Nursing Foundations 1 – 300 Hours (Terms 1 & 2)

Occupational Completion Point: A

Intended Outcomes: (From FL DOE Curriculum Framework)

After successfully completing this program, the student will be able to perform the following:

- Demonstrate knowledge of the healthcare delivery system and health occupations.
- Recognize and practice safety, security and emergency procedures.
- Demonstrate knowledge of blood borne diseases, including HIV/AIDS.
- Perform patient and personal care as it pertains to the practical nurse.
- Provide patient-centered care for the geriatric population.
- Assist with restorative (rehabilitative) activities.
- Demonstrate organizational functions, following the patient plan of care.
- Demonstrate computer literacy as related to nursing functions.
