Atlantic Technical College
and Technical High School

Broward County Public Schools
Welcome from the Director

On behalf of the entire faculty, staff and student body of Atlantic Technical College and Technical High School, I would like to welcome you to our campuses and to the many educational programs and opportunities that we offer. Our mission is to assist you in any way possible to achieve your academic and career goals. We offer 35 challenging instructional programs in high-wage, high-skill and high-demand occupations. All of the career and technical programs are aligned with state and national standards. You will have the opportunity to earn industry credentials and articulated college credit to our state college system upon completion of your program.

This catalog has been developed to assist you in understanding our programs of instruction, curriculum design and delivery, and the policies and procedures that govern our technical college. We look forward to working with you and wish you the very best in achieving your goals!

The programs listed in this catalog are comprised of individual courses that are approved by the FLDOE and consistent with Florida’s Statewide Course Numbering System.
Atlantic Technical College and Technical High School (ATC) is an innovative career and technical education facility that provides a wide range of opportunities for adults and select secondary students in Broward County, Florida. ATC is a public school operating under the authority of the School Board of Broward County, Florida and the Florida Department of Education. Atlantic Technical College places major emphasis on the development and implementation of high-skill, high-wage, and high-demand occupational programs that are designed to meet the current and future needs of business, industry and the community we serve. Our quest is to provide the finest occupational training in the nation.

In August of 1973, Atlantic Technical College officially opened its doors for business and offered technical instruction in 11 different program areas. Over 450 students attended the school during its first year of operation. Fast forward to 2019 and you will see the tremendous growth and expansion that has occurred at our school in 46 years. Not only do we offer over 30 technical programs, but we now have a current enrollment of nearly 4,500 students.

A major event occurred on June 24, 2014, when the School Board of Broward County, Florida officially changed our name to Atlantic Technical College, launching a new era in career, technical and adult education. With the full support of Broward's local businesses, industries and the community, we have seen a significant increase in student enrollment, program completers and job placements.

The ATC Main campus is located on a beautifully landscaped, thirty-acre site in Coconut Creek. The twenty-four buildings and thirty-one portables on the main campus provide classrooms, labs, offices, and support services for our Certificate/Applied Technology Diploma programs, Pre-College programs (adult general education), Apprenticeship programs and a Technical High School. The Arthur Ashe, Jr. Campus is located at 1701 NW 23rd Avenue in Fort Lauderdale and the Atlantic Technical College - ESOL Campus @ Coconut Creek HS is located in portable classrooms on the Coconut Creek High School campus, only a mile from the main campus.

Career and Technical Education programs are concentrated in occupational clusters: Architecture & Construction; Business Management & Administration; Health Science; Hospitality & Tourism; Information Technology; Manufacturing; and Transportation, Distribution & Logistics. For those who want to "earn-as-they-learn" ATC serves as the Local Educational Agency (LEA) coordinating the largest apprenticeship training program throughout Florida. Other educational services include: Pre-College programs to include Applied Academics for Adult Education (AAAAE); English for Speakers of Other Languages (ESOL); GED® Test Preparation; and Exceptional Student Education (ESE) services; ESE Career Placement Transition; Adult Curriculum for Community, Employment and Social Skills (ACCESS); Veterans Assistance (VA) and Disability Services.

Vision/Mission

Vision: To change the lives of people from all backgrounds through innovative education.

Mission: The mission of Atlantic Technical College and Technical High School is to promote excellence in academic, career and technical studies in order to prepare students to enter and remain competitive in a global workforce.
Atlantic Technical High School

Atlantic Technical College's Technical High School (ATCHS) is a magnet high school program whose unique design allows students to become immersed in a rigorous and challenging learning environment while generating interest in a variety of technical programs. Each student has the opportunity to achieve The FAB Four:

- College Ready High School Diploma: Scholar and Merit
- Technical Program Completion Offering Dual Enrollment Quality Points
- Industry Certification or License
- Articulated Postsecondary State College Credit

Technology is integrated into every aspect of the high school, fostering an innovative learning environment. Small class size creates a high degree of personalization where teachers encourage critical thinking and employ diverse instructional methodologies. This personalization extends to the student's selection of a technical program which becomes their focus in the junior and senior years. This process is thorough and precise, facilitating informed choices by students and their parents.

Accolades

Our High School is an "A" rated school in the State of Florida and in 2019, was named a National Blue Ribbon School as an Exemplary High School by the Department of Education. A "National Magnet School of Distinction" from 2008 - 2012, in 2013, ATCHS was named a "National School of Excellence", the highest award given by Magnet Schools of America. These designations recognize the school's innovative curriculum, specialized teaching staff, and the academic achievement of the students. ATCHS is consistently included in U.S. News & World Report's annual "America's Best High Schools" and is now considered one of the "America's Most Challenging High Schools" as published in The Washington Post.

Career Clusters

Technical Program Options:

- Architecture & Construction
- Business Management & Administration
- Health Science
- Hospitality & Tourism
- Information Technology
- Manufacturing
- Transportation, Distribution & Logistics

Extracurricular Clubs and Activities

Atlantic Technical College and Technical High School has more than twenty clubs including, but not limited to: Teen Trendsetters, Students Advocating for Equality (SAFE), Academic Competition, Chess Club, Key Club, Health Occupations Students of America (HOSA), Mathematics Honor Society (Mu Alpha Theta), National Honor Society (NHS), Business Professionals of America (BPA), Student Government, SkillsUSA, and Yearbook.

ATCHS students participate in competitions at the district, state and national levels and have earned numerous awards.
Start Your Career

Eligibility

Atlantic Technical College and Technical High School (ATC) accepts applications on a non-discriminatory basis from anyone having the interest in an occupational training program. ATC admits as postsecondary (adult) students, those individuals who have completed their secondary school education, or who are 16 years of age or older and have officially withdrawn from high school. Secondary (high school) Career Dual Enrollment students apply through their high school guidance department. Technical Magnet High School students apply through the District Innovative Programs office.

Enrollment Process

ORIENTATION AND TESTING

We ask all students interested in enrolling in a Career and Technical Education program to attend a program orientation. At this session you will receive information about the programs you are interested in and details regarding the enrollment process.

Step 1 | Attend a program specific orientation:
Get started on a promising new career at Atlantic Technical College by signing up for one of our program Orientations on the Main Campus in Coconut Creek. Go to http://www.atlantitechnicalcollege.edu/getting-started/, click on the day of the week that connects to the Career Area you are interested in and you will be taken to a short Orientation sign-up form. Complete the form by answering six (6) simple questions, then check your e-mail for additional information about Orientation. We look forward to seeing you at Orientation and getting you started on a path to a new career! Students interested in Lifelong Learning classes do not need to attend orientation or take the Basic Skills Test.

Step 2 | Take the Basic Skills Test or meet exemption criteria:
The State of Florida requires that all students enrolled in a postsecondary program consisting of 450 clock hours or more must meet minimum basic skill levels in reading, mathematics and language or meet state exemption criteria in order to receive their certificate at the completion of their program. Applicants must pre-register for the test in person 24 hours in advance of taking the test. Testing fees are $15. The applicant must have a valid picture identification to enter the testing center.

Exemption from testing: Prospective students showing evidence pursuant to State Board Rule 6A-10.040(8) may be eligible to receive an exemption from taking the test.

Please see a counselor/advisor for the most current information on exemption criteria.

Step 3 | Meet with a counselor/advisor:
When you meet with your counselor/advisor you will receive your test results; test scores cannot be given over the telephone. You will work with your counselor/advisor to decide your next steps using your test results as a guide. You will review your program placement, residency requirements, potential special needs, financial aid options, and the registration process. In some cases your counselor/advisor may recommend enrollment in, or referral to a Pre-College program to assist you in building the academic or language skills necessary for you to succeed in your career and technical program.

Step 4 | Register/Enroll for Class:
Postsecondary student registration is held three (3) times during the year. Not all programs admit new students during each registration period. Please check with the counselor/advisor for space availability. Students are accepted on a first-come, first-served basis and classes close when full. Classes may be cancelled if there is not sufficient enrollment.
ORIENTATION AND TESTING FAQ’S

How long is Orientation? Orientation is approximately 1 hour.

Do I need to take the Basic Skills Test? The State of Florida requires that all students enrolled in a postsecondary program consisting of 450 clock hours or more must meet minimum basic skill levels in reading, mathematics and language or meet state exemption criteria to receive their certificate at the completion of their program. See your program counselor/advisor for the most current information on exemption criteria.

Should I bring anything to the Testing Center? You will be provided with testing supplies in the testing center. You must have a valid photo I.D.

How do I get my test results? Test results may not be given over the phone. Bring a valid photo ID and meet with your counselor/advisor to discuss your test results.

How long are my Basic Skills Test scores valid? Once scores have been met, Basic Skills Test scores are valid for up to two (2) years preceding enrollment in a Career and Technical program. Students who have not met their scores have 12 months from their original test date to register and begin Adult Academic classes or the student will be required to retake the Basic Skills Test and pay the testing fee again.

What if I need accommodations due to a disability? If you are an adult with a documented disability who needs special testing accommodations, please contact the Disability Services Advisor at 754-321-5259 before testing or 754-322-2818 at the Arthur Ashe, Jr. Campus.

Can my Basic Skills Test scores be accepted from another institution? Yes, your Basic Skills Test scores can be accepted from another institution if they meet the following criteria:

- Must be valid scores from any public institution within the State of Florida as well as transcripts from any accredited postsecondary institute within the U.S.
- Must be less than two (2) years old
- Must be on the appropriate level for your program (your counselor/advisor will advise)
- Must be an official, sealed copy

ORIENTATION - Main Campus Only

Attend a program specific orientation by following these three (3) simple steps:

Step 1 | Go to http://www.atlantictechnicalcollege.edu/getting-started/.

Step 2 | Click on your program area of interest.

Step 3 | Select your day and sign-up!

- Be sure to arrive at the Orientation Room at least 10 minutes before start time. Doors close 15 minutes after session starts.
- Parking is open, however, there are spaces reserved for Orientation Attendees in the WEST parking lot.
- Following orientation, you may register for testing if needed. Counselors are available to speak with you in Bldg. 10.
- Please do not bring young children to orientation.
- Orientation is not offered on holidays or “days off” that are approved by the School Board of Broward County, Florida.
### TESTING PROCESS AND SCHEDULE FOR MAIN CAMPUS

- **Before You Test:**
  - Applicants pre-register in Building 10 at least 24 hours ahead of testing.
  - Choose one of the times/days listed in the Testing Schedule below.
  - Complete the ATC Assessment Information Form & pay $15.00 to the Registrar in Building 10.

- **On The Day You Test:**
  - Please report to your assigned testing location AT LEAST 15 minutes before the start time. Doors close at the beginning of each session.
  - Testers must present ONE of the following picture identifications at the time of testing and to receive test results:
    - Valid Florida Drivers’ license
    - Valid Green Card
    - Valid Passport
    - Valid Military ID card
    - Valid Florida ID card
    - Broward County High School ID for Career Dual Enrolled Students

Identification that is not valid will not be accepted for testing.

</table>

*Note: Tuesday, Thursday & Saturday days require two (2) testing sessions.

### Helpful information about the Testing Centers

- The test is taken on a computer.
- You will have a maximum of six (6) hours to complete the entire test.
- Each section of the test is timed.
- The testing instructions will be presented on the computer screen.
- A calculator may be used and will be provided for the second part of the Math test.
- Bring a sweater for your comfort.

There are no tests given on Fridays or School Holidays. See your Counselor/Advisor for test results.

- No children, cellular phones, electronic devices (including smart watches), food, or drinks are allowed in the Testing Centers.
- Atlantic Technical College reserves the right to re-test any applicant to validate test scores.

### TESTING SCHEDULE FOR ARTHUR ASHE, JR. CAMPUS

Building 2, Learning Commons
Monday and Wednesday 8:00 a.m. - 12:00 p.m.
Academic Policies

Basic Skills Requirements and Program Prerequisites

Individuals interested in enrolling in a career and technical program must take the Basic Skills Test, unless exemption criteria have been met. The State of Florida has mandated that all students enrolled in a postsecondary program consisting of 450 clock hours or more must meet a minimum basic skill level in reading, mathematics and language to receive their certificate at the completion of their program. Students not meeting the basic skills requirements will have the opportunity to receive appropriate instruction in order to achieve the required levels prior to completion of their programs. There is a fee for the initial assessment. Once results are received, students meet with a program counselor/advisor to discuss educational options.

State Board policies provide for testing exemptions. Please see your counselor/advisor for the most current exemption policies.

In addition, per State Board Rule 6A-10.040, Section 4, a student may apply for a waiver from meeting the minimum basic skills for the technical program in which they are enrolled. This provision allows for program completion by students with disabilities who meet the requirements of their career education program, even if they cannot meet the basic skills requirements.

Program prerequisites may vary because of occupational requirements, School Board Policy, and/or licensing regulations. Licensure programs that require a high school diploma or equivalent for entry do not accept correspondence diplomas or diplomas from non-accredited schools.

In accordance with requirements set forth by the Joint Commission and the Jessica Lunsford Act, students applying for entrance to any health science education program that requires a clinical experience in a hospital, nursing home, or other health care facility must submit to a Level 2 criminal background check and a drug screening test. The applicant is responsible for paying the costs of both tests. The results of these tests may prevent the applicant from entering the program. The denial of entry into a program would be necessary due to the student's inability to access clinical facilities for training purposes required as a part of the instructional program. In addition to the background check and drug screening, all students registering for any of the Health Science programs are required to have current immunizations and a yearly physical examination. Other programs may also require drug screenings or fees for liability or other insurance. Applicants are responsible for paying these costs.

Foreign Transcripts

Students with foreign transcripts are responsible for obtaining their own translation and evaluation, which must be completed by a Broward County Public School approved agency. Students should note that just a translation of their foreign transcript is not sufficient; their educational records must be certified "as being the equivalent to a secondary and/or postsecondary education in the United States."

International Students

Prospective international students may enroll and attend classes at Atlantic Technical College. International Students (M-1 Student Visa Status) must be enrolled in a program as a full time student (18 - 22 clock hours a week) and should apply to Atlantic Technical College two (2) to four (4) months prior to the term of enrollment. International students are not eligible for annual vacation such as summer break.

No online or distance education classes will count toward an M-1 student's full course of study requirements if such classes do not require the student's physical attendance for classes, examinations, or other purposes integral to complete the class. M-1 students are admitted for a specific educational objective and cannot change that objective while in the United States.

International students are considered temporary residents of the United States and may not be deemed Florida residents for tuition purposes. Therefore, they are required to pay out of state tuition for the duration of their studies. They must maintain lawful M-1 visa status with the U.S. Citizenship & Immigration Services (USCIS) and be in compliance with all the Technical Colleges’ rules and regulations.
Please be advised acceptance to Atlantic Technical College does not guarantee a student visa by the U.S. Embassy from abroad; neither does it guarantee a change of status by the U.S. Citizenship and Immigration Services (USCIS). International students obtaining the student visa in their country are not permitted to enter the U.S. more than 30 days before the first day of classes.

One of the requirements to obtain an international student visa is that the prospective student or sponsor must have sufficient funds to cover tuition and living expenses during the period of intended study.

For complete admissions requirements, documents needed, and what to do after applying for a program, contact the International Student Advisor Vera Fernandez, at 754-321-5737.

**Standards of Academic Progress for International Students**

International students must maintain a minimum cumulative grade point average (CGPA) of C by the end of each course completion. International students whose CGPA falls below a C at the end of any course will be terminated from the Student and Exchange Visitor Program. M-1 students can only miss a full course of study due to medical conditions.

**Attendance Policy for International Students**

A student must be withdrawn after being absent for six (6) consecutive days. The student will be withdrawn on the seventh (7th) day, which will be recorded as the withdrawal date. After that, the student will be terminated from the Student and Exchange Visitor Information System (SEVIS) for unsatisfactory attendance. With appropriate documentation, two (2) additional absences may be allowed for death in the family, illness, or hospitalization. M-1 student can only drop to part-time status while enrolled in a full course of study due to an approved medical condition.

**Progress/Evaluation & Grades**

ATC students are evaluated on their performance in the classroom and/or in the lab.

<table>

</tr>
</tbody>
</table>

In many programs, the final grade and/or issuance of a Certificate of Completion will be determined by completion of career and technical courses and a combination of test scores completed within a specified time frame.

**Grade Forgiveness**

Grade forgiveness may be applied for students who receives a D or F in a course, which will permit them to complete their program and/or preserving their eligibility to articulate from the technical college for college credit per the Statewide Articulation Agreements. Specific criteria applies and students must meet with their assigned counselor to discuss eligibility.

**Certificates of Completion/Applied Technology Diplomas**

The awarding of a Certificate of Completion or Applied Technology Diploma is governed by the Florida Department of Education, and is based on successful completion of the requirements of the program, including applicable state mandated basic skills requirements. Instructors use a variety of specific competency-based examinations and performance criteria to determine program completion.
Guarantee for Success Plan

Atlantic Technical College and Technical High School (ATC) is committed to teaching the skills necessary for career success. To demonstrate our support, we offer the Guarantee for Success Plan. If a graduate of ATC does not pass the identified, entry-level, industry certification test in his or her field of study, the student is invited to return for additional training and/or test preparation at no additional cost (conditions apply). Students in consultation with their instructor, and/or counselor will attend up to nine (9) weeks.

Records

Student records are confidential. Parents, guardians and spouses of students who are 18 years of age or older or attend a postsecondary institution must have the student’s written permission to inspect and review any and all official records. Parents/guardians of students 17 years of age or younger may review their child’s records upon request. Additional information on the Family Educational Rights and Privacy Act (FERPA) is available in the Office of Student Affairs and in the Student Rights section of this catalog.
Students with previous technical training from other institutions may receive credit for that training within two (2) years of completion. A transcript from a Florida public institution documenting course completion and/or Occupational Completion Points achieved for a specific technical program will be accepted in transfer at the receiving institution for the same technical program. A transcript from a non-public institution that is fully accredited by a regional or national accrediting agency recognized by the Broward County Public Schools (BCPS) and that participates in the common course designation numbering system will be accepted in transfer at the receiving institution for the same course/program.

A transcript from a non-accredited institution will be evaluated on an individual basis by the department head, counselor, instructor, and program administrator to determine if advanced placement in a given program is applicable.

**Attendance Policies**

It is Atlantic Technical College’s responsibility to prepare our students for the workforce by teaching them the skills necessary to be successful employees. Employers recognize that the single most important trait for career success is good attendance. ATC’s attendance policies are the minimum acceptable standard to be successful in all Certificate and ATD programs at Atlantic Technical College.

Instructors and counselors/advisors may offer intervention strategies where attendance is affecting the educational progress of the student. Students who register for a class, yet fail to attend within the first five (5) days of the enrollment period, will be withdrawn.

More stringent attendance policies exist for students enrolled in licensure programs and students who are receiving Financial Aid or are approved for Veterans Training.

Note that attendance policies for Veteran Affairs students are different. Please refer to the section on Veterans Education for Veteran Affairs specific policies.

**ABE, GED® Test Preparation, AAAE & ESOL**

The following attendance policy has been established by the Department of Education. A student must be withdrawn after being absent for six (6) consecutive days. The student will be withdrawn on the seventh (7th) day, which will be recorded as the withdrawal date. There are no excused absences. Withdrawn students may re-enter in the same class if space is available, however, students will be limited to one (1) re-entry per enrollment period.

**Interventions**

Students who reach an intervention point within an enrollment period as indicated by a pattern of non-attendance, poor attendance or are not making adequate progress, shall be counseled either by the instructor, program counselor/advisor, or department head. An Educational Contract for Success may be completed by the instructor, program counselor/advisor, or department head.

It is the intent of Atlantic Technical College to provide the best educational opportunity possible that will prepare individuals to make a positive contribution to their chosen occupation. It is expected that every Workforce Education student will demonstrate attendance habits consistent with the expectations of the workplace.

**Certificate & ATD Programs**

**Total Absences**

A student must be withdrawn after being absent for six (6) consecutive days. The student will be withdrawn on the seventh (7th) day, which will be recorded as the withdrawal date.

Two (2) additional absences may be allowed for: court appearance, death in the family, illness, or hospitalization; the duration of jury
duty will be exempt when official documentation is provided. If the student is unable to present documentation before the absence occurs, then they must present appropriate documentation to the instructor and program administrator before re-entering class. For Practical Nursing, please refer to the Practical Nursing Handbook.

Interventions
Students who reach an intervention point within an enrollment period as indicated by a pattern of non-attendance, poor attendance or are not making adequate progress, shall be counseled either by the instructor, program counselor/advisor, or department head. An Educational Contract for Success may be completed by the instructor, program counselor/advisor, or department head.

It is the intent of Atlantic Technical College to provide the best educational opportunity possible that will prepare individuals to make a positive contribution to their chosen occupation. It is expected that every Workforce Education student will demonstrate attendance habits consistent with the expectations of the workplace. Instructors and counselors/advisors may offer intervention strategies where attendance is affecting the educational progress of the student. All postsecondary students will assume responsibility for making up missed assignments in a timely manner in order to stay current with program progression.

Probation
Students who have been withdrawn for attendance reasons may not re-enter their program without meeting with their program administrator. The administrator may refer the student for counseling and notify the student that he/she will be placed on probation for the remainder of the enrollment period at the administrator’s discretion. If any further absences occur, the student will be withdrawn and will not be able to re-enter until the next enrollment period. Any student who is withdrawn from a program three (3) times within a twelve-month period may not be allowed to re-enter that program for a period of two (2) consecutive enrollment periods. It may be necessary for students to wait until it is academically appropriate to re-enter if the course they are enrolled in is not being taught, or a seat is not available at the time they are eligible to re-enter.

Authorized Leave
Students may apply for one (1) Authorized Leave through their program administrator each academic year. The maximum length of time for the leave is the remainder of the current enrollment period. Students must clear all financial obligations, and check with financial aid or sponsoring agency before an Authorized Leave is approved.

Tardies
Tardies are defined as a student not being present in the classroom for the hours indicated on his/her schedule. Attendance at Broward Technical Colleges is recorded in positive half hour increments. If a student is tardy more than three (3) times, he/she will be referred to his/her counselor/advisor or administrator.

Denial of Re-Registration
If it is determined by the instructor and counselor/advisor that a student has not made adequate progress within an enrollment period, the student may be denied the ability to re-register for the next enrollment period. Administrative approval is required to deny or rescind re-registration privileges and to determine when it is academically appropriate to re-enter the program. Reasons for denial of re-registration due to inadequate progress include: poor attendance, missed/unsatisfactory class or lab work, or inability to demonstrate skills necessary to meet industry specific standards.

Distance/Online Learning
Each online or hybrid certificate/ATD program will provide students with a syllabus and pacing chart outlining assignments, due dates, and the comparable number of hours the student would have completed in a classroom as they relate to program courses or Occupational Completion Points. In addition to maintaining satisfactory progress according to the course syllabus and pacing chart, it is expected that students will also maintain attendance/activity in the online or hybrid program. These may be defined as logging into the online program, e-mailing, attending web conferences, having telephone or in-person conversations with instructors, turning in assignments when due, and attending any scheduled classroom sessions if included as part of the program. A student will be marked absent when work is not submitted on time. Pro-rated attendance hours will be deducted when only partial work for the week is submitted. Students who have one (1) week of inactive during the enrollment period will be contacted by the instructor or the program counselor/advisor. The instructor or program counselor/advisor will maintain documentation of this contact. Upon completion of the second week of inactivity during the enrollment period, the student will be withdrawn.
Veterans Education

Benefits

Atlantic Technical College gives veterans preference in the admission process.

For complete information on eligibility, students should contact the Department of Veterans Affairs by calling 1-800-442-4551 or go to the VA website www.gibill.va.gov. For information pertaining to the school's programs approved for veterans benefits by the State Approving Agency, and for additional information regarding the admissions process, contact the school's Certifying Official at 954-614-1608.

VA Attendance Policy

Per the Department of Veteran Affairs Policy, veterans enrolled in NCD (non-college degree) programs will have their VA education benefits terminated for unsatisfactory attendance when accumulated absences, tardies, and leaving class early exceed 20 percent of scheduled class clock hours in a month or, where the course is less than one month in length, 20 percent of total approved course clock hours for the length of the program (days or weeks). The termination will be reported to the Department of Veterans Affairs within 30 days of the veteran's last date of positive attendance when absences/tardy exceeds 20% (using Form 22-1999b to report the termination for unsatisfactory attendance) and will reflect that last date of the student's class attendance before violating this policy.

A veteran may be recertified for VA educational benefits at the beginning of the term or, where a school does not operate on a term basis, 30 days following the termination of benefits due to unsatisfactory attendance after showing that the cause of unsatisfactory attendance has been removed. This is done by the veteran meeting attendance standards, as defined, for one month after being terminated for unsatisfactory attendance.

Distance Education

In accordance with PL115-48 (The Harry W. Colmery Veterans Assistance Act of 2017 (aka the Forever GI Bill®)), Section 302, it has been determined that the school meets the requirements to allow for approval of certain courses taught in whole or in part in a distance education modality. Chapter 35 (Dependents Education Assistance) Beneficiaries are not eligible for Distance Education.

Standards of Academic Progress for VA Students

Students receiving VA educational benefits must maintain a minimum cumulative grade point average (CGPA) of 2.0/C by the end of each course completion. A VA student whose CGPA falls below a C at the end of any course will be placed on academic probation for a maximum of two (2) consecutive terms of enrollment. If the VA student's CGPA is still below a C at the end of the second consecutive term of probation, the student's VA educational benefits will be terminated. A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the school to be recertified after attaining a CGPA of 2.0/C.

Education Benefits/Tuition for VA Students

The Department of Veterans Affairs will only provide educational benefits for the length of time listed on the Florida Department of Education's Program Curriculum Frameworks and within the advertised hours in the school's catalog. If a student's enrollment exceeds these hours, the student will be financially responsible for any additional tuition and fees.

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA.

This school will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class;
- Provide a written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.
Services for Students

Career Assessment
Career Assessment Services offer comprehensive assessment programs designed to assist in career planning topics.

Counseling
Atlantic Technical College is committed to providing our students with the support they need to achieve success in their educational and career goals. Our counselors, advisors and social worker are available to assist our students in making informed choices and providing the resources necessary to successfully complete their program of study and get a job. Guidance and counseling include: career advisement, occupational counseling, veterans information, disability services, exceptional student counseling, international student counseling, financial aid, and job placement assistance.

Disability Services
A Disability Services Advisor is available to students who have, or believe they have a disability. It is the student’s responsibility to disclose and document his/her disability if he/she wishes to access accommodations for that disability.

Job Placement Assistance
The Career Services Advisor at Atlantic Technical College maintains an effective job referral and placement service to meet students’ and community needs by matching student abilities and experience with employers’ requirements and, in collaboration with instructors, referring students for interviews. The Career Services Advisor provides employability skills training for students through various instructional presentations and workshops that cover topics ranging from resume writing and cover letter development to interview skills, as well as the soft skills development needed to be successful in the job environment.

The Atlantic Technical College Career Center provides students a modern and professional environment promoting a sense of community, collaboration, and conversation among students, alumni, and the business community. The Career Center is the perfect environment to promote open communication and practical networking experience. Within the Career Center, students and alumni are able to apply for jobs, create resumes, interview with potential employers and have access to various types of employability information.

Graduation
A graduation program is held annually in early summer to acknowledge program completers and to give family and friends the opportunity to see graduating students receive their technical certificates and/or diplomas.

Students who complete their programs early in the year are invited to return and participate with their class.
# Certified School Counselors/Career Advisors

Financial Information

Fees

Fees charged for enrollment in programs/courses are established by the Florida Legislature and are in accordance with a schedule adopted by the School Board of Broward County, Florida. Fees listed in the school schedule are for Florida residents. The program counselor/advisor assists students with residency verification.

Tuition and Florida Residency Requirements

Applicants to Certificate or Applied Technology Diploma programs must provide documentation showing 12 consecutive months of Florida residency and complete a Residency Affidavit for Tuition Purposes form to be eligible for in-state tuition rates. Tuition for out-of-state students is calculated at a higher rate. Staff will review this information and related documentation to verify residency and eligibility for in-state tuition. Registration, books, supplies, insurance, and activity fees are in addition to tuition.

Payment of Tuition and Federal Taxes

Enrollment and payment of tuition at this institution could affect your federal income tax return, and in some cases, may increase your refund. For this to occur, we must have your social security number at the time of registration to enter you into our secure student database.

Atlantic Technical College students who have provided their Social Security number and qualify for a 1098-T tax form may access their 1098-T documents from their secure Student Portal. Broward Technical Colleges no longer provide paper-based copies of 1098-T forms.

Cancelled/Closed Classes

All classes are subject to minimum and maximum enrollment requirements. A class may be cancelled if minimum enrollment requirements are not met by the scheduled start date. Every effort will be made to contact students who are already registered and all fees will be refunded. Closed classes are those which have met the maximum enrollment requirements. These are established based on space availability, equipment and safety reasons. Students will not be added to a closed class without administrative approval.

Method of Payment

Registration, tuition and testing fees may be paid with cash, debit card, MasterCard, Visa, local check or financial aid. ATC participates in the Florida Bright Futures and Florida Prepaid programs. If fees paid by check are refunded, the applicant must wait at least ten (10) days for processing the refund. The College is not permitted to cash personal checks.

Refund Policy (SBBC Policy #6607)

1. All refunds shall be accounted for and audit trails maintained in accordance with Business Practice Bulletins issued by the Office of the Chief Financial Officer.
2. Students who appear at the school in person and voluntarily withdraw within five (5) school days of the beginning of a term shall be entitled to a full refund of tuition, student activity fee, fee-supported cost recovery, and lab/supply fees. Registration fees and Health Science Education fees are non-refundable. Five (5) school days shall not apply to courses less than three (3) weeks or ninety (90) hours in duration. In such cases, the request for withdrawal must be made prior to the course meeting more than one-third (1/3) of its assigned hours. Retention of fees collected in advance for a student who does not enter class shall not exceed $100. Refunds will be made within forty-five (45) days of the date on which the student voluntarily withdraws.
3. Students involuntarily withdrawn pursuant to the Adult Student Conduct and Discipline Code are not entitled to a refund of any fees.
4. Students who pay fees but are entitled to a waiver, voucher or agency payment (refer to SBBC Policy #6606) shall be entitled to a refund of fees only if required evidences are presented to the school/college principal or his/her designee within fifteen (15) school days of the beginning of a term.
5. In the case of unusual or extraordinary circumstances (such as illness, death in family, etc.) that preclude a student’s enrollment, the school principal or his/her designee may honor a request for full or partial refund of fees providing that: (1) the request is made in writing prior to the date that the course would have normally ended, (2) supporting evidence (where appropriate) is provided. If said refund results in a failure to satisfy state fee requirements, the student shall not be reported for membership during the Workforce Education Fund survey period in the course for which the refund is given.
6. Students who feel they have been treated unfairly in the application of this policy or its rules may appeal using the student grievance procedure as presented in the Student Conduct and Discipline Code.
7. Refunds, when due, will be made without requiring a request from a student.
8. Refunds, when due, will be made within forty-five (45) days: (1) of the last day of attendance if written notification of withdrawal has been provided to the school/college by the student, or (2) from the date the school/college withdraws the student or determines withdrawal by the student.
9. A student is entitled to a full refund of fees if a course is cancelled by the school/college principal/director or his/her designee, provided however, that the student was not reported in membership during the Workforce Education Fund survey
period in which the class was counted. If so, only those fees in excess of the state requirement shall be refunded.

10. Miscellaneous items purchased from the school bookstore (textbooks, uniforms, etc.) may be returned for a full refund provided that the customer supplies a sales receipt, the items are unused and in the original packaging, and currently being used in the instructional program.

Financial Aid

Financial Aid is a source of monetary support consisting of grants, scholarships, and agency sponsorship for those who qualify. Most financial aid is intended to supplement, not replace the family’s financial resources. The Office of Financial Aid is located on the ATC Main Campus, Office of Student Affairs (Building 10).

Information about the Free Application for Federal Student Aid (FAFSA) is addressed at orientation and on ATC’s Website. Worksheets are also available in the Office of Student Affairs. The quickest way to apply is online at www.fafsa.gov.

Student Activity Fee

A $20.00 student activity fee is assessed annually to all students. This fee partially defrays the cost of security, parking permits, student identification badges, graduation and other student activities.

Student Rights

FERPA Notification - Family Educational Rights & Privacy Act (FERPA) - Notice

The Family Educational Rights and Privacy Act is a federal law that protects the accuracy and privacy of students’ education records. Student records are confidential. Parents, guardians, and spouses of students who are 18 years of age or older must have the student’s written permission to inspect and review any and all official records. Parents/guardians of students 17 years of age or younger may review their child’s records upon request.

The Family Educational Rights and Privacy Act (FERPA), Florida Statutes (F.S.) 1002.22 and 1002.221, and SB Policy 5100.1 affords parents, guardians, or eligible students certain rights with respect to the student’s education records. An “eligible student” means a student who has reached the age of 18 or who is attending a postsecondary institution at any age. Once a student becomes an “eligible student,” the rights afforded his or her parents under FERPA transfer to that student.

For additional information, refer to SBBC Policy 5100.1, or call the Office of Student Affairs. If you wish to discuss and try to resolve any FERPA concerns before contacting the Family Policy Compliance Office, you may contact the SBBC Privacy Officer at 754-321-1914.

Learner Rights and Responsibilities

It is our District's responsibility to inform all students that accommodations may be available for basic skills testing as well as instruction, (such as extended time or testing in a separate room). Persons with documented disabilities, including but not limited to, a learning disability, ADHD, emotional disability, orthopedic impairment, or a hearing or vision impairment are protected under law with the right to accommodations in instruction and testing.

EACH STUDENT has the right to:

- participate in adult education programs, services, and activities without discrimination.
- choose whether to disclose a disability.
- receive reasonable accommodations in class and on tests.
- meet with staff to discuss his/her needs.
EACH STUDENT has the responsibility to:

• self-identify, or notify a teacher or registrar if he or she needs or wishes to request accommodations for testing or instruction.
• provide documentation of their disability. Documentation is required, but will be kept confidential.

Possible accommodations may include, but are not limited to:

• extra time for testing
• frequent breaks
• private work area
• Sign Language Interpreters
• alternate test formats (Braille, audiotape, large print)
• assistive devices

If you have ever had, or think you might currently have a learning disability or other disability which affects your ability to learn or to take tests, please let us know as soon as possible. Together, we can determine what assistance you may need in testing and instruction.

Disability Services

As an Equal Access/Equal Opportunity Institution, Atlantic Technical College and Technical High School assures students with disabilities equal access to all programs, activities, and services, as described in sections 504 and 508 of the Rehabilitation Act of 1973 and in compliance with the Americans with Disabilities Act Amendments Act of 2008 (ADAAA). Specialized services and counseling are provided by trained staff in the Office of Student Affairs and the Exceptional Student Education Department (high school).

A Disability Services Counselor/Advisor is available to students who have, or believe they have a disability.

Grievance Procedures

Grievance procedures for adult students have been approved by the School Board of Broward County, Florida, and are published in the Atlantic Technical College Student Handbook. Adult students are instructed to access the Student Handbook online at www.AtlanticTechnicalCollege.edu/atc-student-handbook/ at the start of their first term, and asked to indicate that they have read and understand the grievance procedures as outlined in the handbook. The acknowledgement is an electronic signature done online. The Grievance Procedures outline a process for the resolution of student grievances for students who feel that they have been treated unfairly under the Conduct and Discipline Code for Adult Students in Career, Technical, Adult, and Community Education, or other rules and regulations.

Grievances can also be addressed to:

The Council on Occupational Education
7840 Roswell Rd, Building 300 Suite 325 | Atlanta, GA 30350
Phone: 770-396-3898 or 800-917-2081 | www.council.org.

Safety and Security

Conduct and Discipline Code for Adult Students

Students enrolled in classes at ATC are expected to conduct themselves in a manner consistent with the maintenance of a safe and productive learning environment. Students in need of discipline will be subject to reprimand by the teacher, referral for counseling, referral to administration, suspension from class, withdrawal from the College or other policy of this institution. From time to time, legitimate differences of opinion between a student and an instructor may occur. Usually such disputes can be resolved between the student and the instructor. In instances where such disputes are not resolved directly with the student's instructor, the student may pursue the District approved grievance procedures. These written grievance procedures are issued to all students as part of their classroom orientation. For more information, see Grievance Procedures.

Discrimination, Bullying and/or Harassment

The School Board of Broward County, Florida prohibits any policy or procedure which results in discrimination on the basis of age, color, disability, gender identity, gender expression, genetic information, marital status, national origin, race, religion, sex or sexual orientation. The School Board of Broward County, Florida, expressly prohibits bullying, including cyber-bullying, cyber-stalking and harassment, by or towards any student or employee. See School Board Policy 5.9: Anti-Bullying for additional information. If any student feels that he or she has been discriminated against, harassed, or bullied, there are specific procedures to report such offenses. Students may also call the Bullying Hotline at 754-321-0911, text: ‘SBBC’ space with your text message to 274637 (CRIMES), or e-mail: school911@browardschools.com.
Emergency Close/Cancellation of Classes

On rare occasions, the Superintendent of Schools determines that severe weather and/or hazardous conditions make it necessary to temporarily cancel classes. When classes are cancelled, the announcement will be made through the news media and/or school notification. Classes that are subject to this action will not be rescheduled except in extenuating circumstances. Classes are not cancelled for thunderstorms or showers.

The Broward County Public School Information Hotline (24/7/365) is 754-321-0321 and the website is www.browardschools.com.

Evacuation Drills

Evacuation drills are held at least once each month for the purpose of orienting students, faculty, and staff to the proper procedures to follow in the event of an emergency. Evacuation routes are posted in each classroom. Students are to familiarize themselves with the route to follow in case of an emergency. If the fire alarm sounds, students and staff are to evacuate immediately. It should be assumed that an emergency exists unless informed otherwise over the public address system.

Instructors explain evacuation procedures at the beginning of each enrollment period and drills are held 12 times throughout the year. Emergency procedures outlining the precautionary measures that must be taken in the event of a bomb threat, fire, civil disorder, hurricane, tornado, injury, or illness are made available to all personnel.

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act:

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, otherwise known as the Clery Act, is a federal law that requires institutions of higher education to provide current and prospective students and employees, the public, and the Department of Education with crime statistics and information about campus crime prevention programs and policies. The Student Handbook is published each year to comply with the requirements of the Clery Act and contains policy statements and crime statistics for the school. The policy statements address the school’s policies, procedures, and programs concerning safety and security, for example, policies for responding to emergency situations and sexual offenses.

Safety, Health and Security

To ensure maximum safety and security, Atlantic Technical College and Technical High School employs Security Specialists and a SRO who patrol the campuses during class hours. Cameras around the campus provide 24-hour surveillance.

Please refer to District Policy 2120 for safety and security measures.

Instructional units on safety practices are incorporated within the course of study for all programs. Students are expected to demonstrate safe practices as part of the learning process. Emergency first aid supplies are kept in each laboratory/shop. There are defibrillators on campus, and several staff members are trained in the use of the defibrillator and in CPR.

Visitors/Volunteers

In compliance with the Jessica Lunsford Act and to ensure the safety of our schools, the District has implemented the computerized Security Tracking and Response (STAR) system as a tool to screen visitors, volunteers and mentors. Visitors to any campus must first go to the Administration Office to be processed through the STAR System and receive an I.D. badge that must be worn while on campus.
Campus Life

Bookstore
The College operates a bookstore as a service to students, faculty, and staff. Textbooks are available for sale to adult students. In addition to classroom supplies, the bookstore also sells T-shirts, bookbags, and other school-related novelty items.

Transactions in the bookstore are cash, debit card, or MasterCard/Visa. No checks are accepted in the bookstore. Miscellaneous items purchased from the school bookstores (textbooks, uniforms, etc.) may be returned for a full refund provided that the customer supplies a sales receipt, the items are unused and in the original packaging, and currently being used in the instructional program.

High school students are loaned school-owned textbooks which must be returned upon leaving the program. Failure to return textbooks will result in a financial obligation which could affect participation in extra-curricular activities or participation in graduation ceremonies.

Cell Phones and Wireless Communication Devices
In the interest of maintaining a respectful, focused and safe learning environment, personal technology devices must be turned off (or silent) and out of sight. No cell phone calls or text messages may be placed or answered while inside any building, classroom, or lab. Personal electronics may be used outside of the buildings during breaks and before and after class. High School students are governed by the policy stated in their “Code of Student Conduct” and may not use cell phones during class.

Phones in the classroom are for staff use only. On the ATC Main Campus, a telephone in the Administration Building (building 1) is available for student use in emergency situations.

Children on Campus
Please do not bring children to orientations or testing. Children are not permitted to wander unsupervised in any area of the campus.

Computer Use
All campuses of Atlantic Technical College and Technical High School are equipped with computers, networks and online telecommunications for student and staff use. All use of this technology must comply with the School Board of Broward County Acceptable Use provisions and the Code of Ethics for Computer Network and Online Telecommunications Users Policy.

Bring Your Own Device - BYOD
The BYOD program allows students to use their personally owned Wi-Fi enabled devices (laptops, smart phones, tablets) to connect to the District’s wireless network. Teachers facilitate the use of student devices by integrating instructional strategies that embed Web 2.0 tools, Internet research, and applications to engage students in curriculum content and collaboration with peers.

Technical Help/Support
- Device hardware must be maintained by the owner of the device.
- Device software must be maintained by the owner of the device.
- District owned software is not to be installed on a personally owned device

Broward Guidelines and Policies for ICT Use
BYOD devices connected to the Broward County Public Schools (BCPS) network pose a risk for every other connected device and therefore users must abide by all BCPS Policies and Guidelines.

The following Policies and Guidelines are in place for Information Communication Technology (ICT) use in Broward County Public Schools.
- BCPS Policies - http://web.broward.k12.fl.us/sbbcpolicies
- Policy 5306 “School and District Technology Usage”
- Policy 6318 “Copyrighted Materials - Reproduction & Usage”
- Policy 4212 “Intellectual Property Copywriting”

Cafeteria
The Culinary Arts program on the ATC Main Campus prepares a short order and cafeteria menu that is served in Café Atlantic during student breaks each day and evening. This service is a component of the curriculum and is used as an added competency for students in the program. The food service is entirely self-supporting and is not part of the District school food service program. The District lunch program is available for Technical High School students during their designated lunch period. Vending machines are located around the campus, and offer a variety of snacks and beverages.
The Student Lounges at the Arthur Ashe, Jr. Campus provide the students with a variety of vending options and a comfortable place to eat.

**Dress Code**

All students are required to dress neatly, to be clean and well groomed. Students enrolled in career programs are expected to wear clothing that is appropriate for industry. Revealing or inappropriate clothing is not permitted for any student (GED®, ESOL or Career Technical). For many programs, students are required to wear uniforms and/or safety apparel which may be purchased in the bookstore or from designated vendors. Uniforms must be worn properly and kept in good condition. Caps or hats that are part of the school uniform may be worn in lab areas. Other head coverings are not permitted inside buildings. Medical or religious reasons for wearing head coverings must be documented in writing and will be placed in the student’s file.

**Field Trips**

Field trips, both in and out of the county, are an integral part of the learning process. Such trips must be approved by the College Director. Overnight and out of tri-county area trips must have the approval of both the Director and the Office of Service Quality. Students and chaperones must complete all required paperwork prior to participating in any field trip.

**Identification Badges**

Identification badges are issued annually to all Atlantic Technical College and Technical High School students. Students are required to wear their I.D. badges on campus at all times. The Student Activity Fee covers the initial cost of the badge, however, a small additional fee will be charged for a replacement badge.

**Illness, Injuries and Insurance**

Students who are injured or become ill while at ATC are responsible for any and all medical or emergency services administered. Each student must carry his/her own hospitalization insurance. In-school and 24 hour accident insurance is available to all students for a nominal fee. This insurance is highly recommended.

High school students may purchase this insurance from ATC or from their home high schools. Student insurance information is available in the Office of Student Affairs.

**Learning Commons**

**Main Campus**

The mission of the Learning Commons is to encourage and support lifelong learning, literacy and independent thinking. The center is available for student and staff use Monday through Friday. Students and staff may check out materials, study, and/or use the available resources. Computer stations with a variety of software programs and internet access are available for student use. A core collection
of fiction and nonfiction texts, reference books, and magazines are available, as well as a wide range of online databases and resources. Instructors may reserve materials, the computer lab, and the small meeting rooms. Production equipment is also available for staff use. The school's Media Specialist is available for instruction and assistance with the use of all resources.

**Arthur Ashe, Jr. Campus Learning Commons**

The Ashe Learning Commons is a flexible, multi-use facility that features a shared space for information technology, tutoring, collaboration, meetings, reading and independent or group study. The Learning Commons is available for staff and student use Monday through Friday with multiple computer stations, quiet study areas and an enclosed conference room for internal use.

**Lost and Found**

Items lost or found on the ATC Main Campus should be reported to the receptionist in the Administration Building (Building 1). Items lost or found on the ATC - Arthur Ashe, Jr. Campus should be reported to the receptionist in the Administration Office (Building 2).

**Parking**

Parking space is provided for adult students on all campuses. All vehicles, including motorcycles, must be registered with the school and must display a parking decal in their rear window. Decals are issued to students when they register for class and the cost is included in the student activity fee. All decals are valid for the school year beginning with the start of the August term/trimester.

"No Parking", "Staff Only" and "Fire Lane" designations must be observed and will be enforced by school security and/or local police. Repeated violations will result in a ticket being affixed to the vehicle and/or towing from the campus. The maximum speed limit on campus is 10 mph, and violators may have their parking privileges revoked.

The School Board of Broward County, Florida is not responsible for damage to, or loss from automobiles or any other vehicles parked or operated on school property. Reasonable suspicion may result in a search of person, possessions, and/or vehicle.

**Smoking**

In accordance with School Board Policy 2401, no person may smoke any kind of cigarette or electronic cigarette within 100 feet of any School Board owned/leased building, vehicle or school property. This includes, but is not limited to, District offices, athletic practice fields, parking lots and administrative offices.

The No Smoking Policy applies to all of Atlantic Technical College and Technical High School campuses, including their parking lots and adjoining property within 100 feet of the entrance gates.

**Student Organizations**

Student organizations are an integral part of the curriculum and are organized to aid in leadership and social skill development. Organizations operate at the local, regional, state, and national levels; and provide the opportunity for students to compete in a collegial setting and demonstrate the technical skills and leadership qualities that they learn in their program. Both adult and high school students are encouraged to join and actively participate in these organizations.

**Transportation**

Transportation is provided for high school students by the School Board of Broward County. The Broward County Transit Authority (public transportation buses) also provides service to the campus.
Apprenticeship Programs
For information on Apprenticeship Programs, call 754-321-5261

Apprenticeship is a method of training students using a combination of on-the-job skills development and classroom/lab related instruction. There are both union and non-union programs. Apprenticeship training programs in Florida operate in accordance with federal laws, and with state laws and rules promulgated through the Florida Department of Education and governed by the Florida Statutes Chapter 446.092.

Apprenticeship training offers individuals a chance to “earn while they learn.” The student is paid for a forty-hour, on-the-job training work week that is supervised by a journeyperson. Apprentices are also required to attend related classroom instruction on selected evenings and/or weekends.

By apprenticeship training standards, the related classroom instruction must be a minimum of 144 hours per year. The actual requirement varies from program to program as stipulated by the program sponsor and approved by the registration agency.

Wage increases are granted as the apprentice gains time in training and acquires experience. Apprenticeship programs vary in length from three (3) to five (5) years.

Atlantic Technical College and Technical High School serves as the Apprenticeship LEA (Local Educational Agency) for Broward County Public Schools, and coordinates the largest apprenticeship training program in Florida. Applicants may choose from a wide variety of occupational opportunities.

Upon completion of an Apprenticeship program and meeting eligibility requirements, students may be able to transfer college credits to Broward College toward an AAS/AS Degree.

- Brick & Block Masonry (Bricklayer)
- Carpentry (Carpenter)
- Commercial Sign Design & Fabrication (Decorator Trade Show)
- Electrician
- Elevator Constructor/Mechanic
- Glazing (Glaziers)
- Heating, Ventilation, Air-Conditioning, Refrigeration (HVAC/R) (Heating & AC Installer/Service)
- Heavy Equipment Operation (Operating Engineers)
- Industrial Pipefitter (Sprinkler Fitter/Pipefitter)
- Line Erector (Lineman)
- Machining (Machinist)
- Maintenance Repairer, Building (Step-Up)
- Painting & Decorating (Painter)
- Plumbing Technology (Plumber & Pipefitter)
- Roofing
- Structural Steel Work (Ironworker)

Note: The Council on Occupational Education (COE) does not accredit avocational programs such as ESOL, ABE, GED® Test Preparation, AAAE or Apprenticeship. In addition, these programs do not qualify for Title IV financial and assistance.
Pre-College Programs

AAAE/ESOL/GED® Test Preparation classes are also available online

Pre-College Academic Studies/ESOL

**MAIN CAMPUS**
Chandler White | Certified School Counselor | 754-321-5164

**ARTHUR ASHE, JR. CAMPUS**
Cindy Burdick | Certified School Counselor | 754-322-2852

**ESOL CAMPUS @ COCONUT CREEK HS**
Jean Vilus | Career Advisor | 754-321-5352

**Applied Academics for Adult Education (AAAE) S990001**
Main Campus/Arthur Ashe, Jr. Campus

This program is designed to provide comprehensive academic support for students who need to improve their reading, math, and language usage in order to meet the state mandated minimum basic skills requirements and achieve success in a career postsecondary program.

Total Cost per Trimester: $30

**English for Speakers of Other Languages (ESOL) 9900040**
Main Campus/Arthur Ashe, Jr. Campus/ESOL Campus @ Coconut Creek HS

This program is designed for adult English language learners to acquire skills in listening, speaking, reading, and writing the English language and to facilitate their acculturation process into their community and the workforce.

Total Cost per Trimester: $30

GED® Test Preparation

**MAIN CAMPUS**
Nabila Bouqatal | Career Advisor | 754-321-5263

**ARTHUR ASHE, JR. CAMPUS**
Cindy Burdick | Certified School Counselor | 754-322-2852

**GED® Test Preparation 9900020**

Main Campus - English, Spanish and online
Arthur Ashe, Jr. Campus - English only

This program provides instruction to prepare students for the GED® Reasoning through Language Arts, Mathematical Reasoning, Science, and Social Studies exams.

Total Cost per Trimester: $30

Authorized Pearson Vue Testing Center

Note: The Council on Occupational Education (COE) does not accredit avocational programs such as ESOL, ABE, GED® Test Preparation, AAAE or Apprenticeship. In addition, these programs do not qualify for Title IV financial and assistance.
Career and Technical Education Programs

Career and Technical Education Programs’ instructional delivery methods are approved by Commission of the Council on Occupational Education (COE), ATC’s accreditation agency.

The following are approved delivery methods:

**Traditional (T):** 100% classroom-based

**Hybrid (H):** Less than 50% of required instructional hours available via distance education (online)

**Distance Education (D):** 50% or more of required instructional hours available via distance education (online)

**For Distance Education/Hybrid Courses:** Students enrolled in distance education (online) and/or hybrid courses should have daily access to a computer with internet and must have a valid e-mail address that they check daily. Additionally, students should have all necessary hardware and software components required by their technology program or adult education course.

Indicates programs that can be completed in approx. one (1) year or less.

---

**Air Conditioning, Refrigeration & Heating Technology**  
I470203 - 1350 hours (approx. 12 months)

Delivery Method: Traditional

The program provides lab and classroom experiences that enable the student to become proficient in the installation, trouble shooting, repair, and maintenance of commercial and residential air conditioning, refrigeration, and heating systems.

Instruction includes intensive theory and application of the basic principles of electricity related to the trade, such as reading electrical diagrams and schematics; the operational characteristics of various systems and their components; use of technical manuals; diagnosis of malfunctions; repair, replacement, and/or adjustments of compressors, metering devices, temperature and pressure controls. Students use a variety of instructional methods to develop their skills, with an emphasis on hands-on activities and projects. Qualified students may receive advanced placement in the HVAC/R Apprenticeship program.

Tuition only: $3,780

**Heating, Ventilation, Air-Conditioning/Refrigeration (HVAC/R)**  
C400400 - 1350 hours (approx. 24 months)

Delivery Method: Traditional

Evening Class only - begin January 2020

Tuition only: $3,780

---

Architecture and Construction

Vania Depasse-Humphrey | Certified School Counselor | 754-321-5167
Carpentry
C510300 - 1200 hours (approx. 12 months)
Delivery Method: Traditional

The Carpentry program prepares students for employment in the Construction and Manufacturing industries by teaching the skills of cutting, shaping, and installing building materials during the construction of buildings, ships, timber bridges, concrete formwork, and so much more. Specialties within the Carpentry field, such as Rough, Finish, Trim, Framing and Formwork, will be explored.

Carpentry students will experience all facets of the carpentry trade including: planning; management; finance; technical and production skills; underlying principles of technology; labor issues; community issues; and health, safety, and environmental issues.

Tuition only: $3,360

Drafting
C100200 - 1500 hours
(approx. 14 months - full time including summer)
Delivery Method: Traditional

This program provides specialized learning experiences that emphasize graphics and related technical theory using the drafting laboratory to gather and translate data and specifications. Instruction is designed to provide experience in all aspects of this graphic language and teaches students how to use it to express their individual creative ideas and designs. Students will focus on planning, interpreting, and preparing: architectural, mechanical, civil, structural, plumbing, landscaping, map, welding, electrical, electronic; and other 2-D and 3-D technical drawings/sketches.

Students begin their training by learning drafting principles and techniques using traditional manual drafting boards and tools. They then advance to the extensive use of techniques and technologies utilized to prepare 2-D Computer Aided Design and Drafting (CADD) work using AutoCAD, 3-D Building Information Modeling (BIM) drawings using Revit and advanced mechanical design drawings using SolidWorks.

Tuition only: $4,200
Electricity
I460312 - 1200 hours
(approx. 12 months)
Delivery Method: Traditional

The program is designed to prepare students for employment in the vast network of jobs in the electrical trades. Instruction includes: basic electricity; residential wiring; commercial wiring; trouble diagnosis and repair procedures; the use of electrical and mechanical tools of the trade for installations and trouble shooting; blueprint reading; and interpretation of electrical symbols. Program content also includes building and wiring codes including the National Electrical Code, splicing and connecting wires, installation of conduit, and safe work practices. Emphasis is placed on skill development, and much of the program is project based.

Note: With additional successful testing, the completion of this program may be used as a substitute for the first year of the Electrician Apprenticeship program.

Tuition only: $3,360

Accounting Operations
B070110 - 900 hours (approx. 10 months)
Delivery Method: Traditional/Distance

The program prepares students for employment as accounting clerks (accounts receivable, accounts payable, payroll) and/or bookkeepers. The content includes double-entry accounting principles, methods of recording business transactions, preparation of financial statements, payroll records and tax forms, account and transaction analysis, inventory methods, the accounts receivable aging process, depreciation, and the application of accounting principles to various entities.

After successfully completing the program, students will be able to perform basic office activities and manual and computerized accounting activities using QuickBooks, Excel, and various other software packages.

Tuition only: $2,520
**Administrative Office Specialist**  
*B070330 - 1050 hours (approx. 10 months)*

Delivery Method: Traditional/Distance

The program prepares the student for employment as an administrative assistant, administrative specialist, front desk specialist, and information technology assistant.

The content includes the use of technology to develop communication skills, higher-level thinking skills, and decision making skills; the performance of office procedures; the production of quality work in an efficient manner using business software applications; administrative and financial functions; production of desktop publishing quality documents; exploration of new technologies; research of job opportunities; and the production of high quality employment portfolios and job-seeking documents.

Tuition only: $2,940

---

**Business Management & Analysis**  
*B060200 - 900 hours (approx. 10 months)*

Delivery Method: Traditional

The program prepares students for employment in careers in business, management, and administration. The content includes communication skills, accounting concepts and practices, business law concepts, leadership skills, business computer applications, business ethics, governmental regulations, human resources and management issues, financial and data analysis, database development and queries, and career development.

This program offers a broad foundation of knowledge and skills necessary for management and supervisory careers. The content of the program focuses on technical skill proficiency especially in the areas of spreadsheets, database management and project management. Students will gain proficiency in all phases of communication skills and customer service skills.

Tuition only: $2,520
The purpose of this program is to prepare students for employment as machine shorthand free-lance court reporters and/or official court reporters. It involves writing verbatim (word-for-word) testimony and producing transcripts of the testimony. Instruction includes an introduction to verbatim writing skills to work with persons with hearing loss (CART – Communication Access Realtime Translation) and provide captioning for television.

Court Reporting is a planned sequence of instruction consisting of three levels: Court Reporting Technology, Court Reporting 2, and 3. Students completing Court Reporting Technology and Court Reporting 2 possess the entry-level skill-set of a scopist or transcriptionist. To become a Court Reporter, students must complete all three levels of the program. This program places strong emphasis on conflict-free theory, real-time writing, speed development, legal terminology, medical terminology, courtroom procedures, and English language skills.

The program at Atlantic Technical College offers the latest technology in computer-aided transcription and real-time writing, i.e., the ability to have an instantaneous translation of the spoken word by projecting the words onto a television screen for the benefit of persons with hearing loss, or onto computer monitors for the benefit of trial participants. Students utilize real-time and captioning equipment.

A court reporting career, including broadcast captioners, offers an independent lifestyle, prestige, and flexibility, along with a substantial salary. When a student reaches the speed of 200 words per minute (wpm), he/she participates in an internship that enables the student to sit in on trials and depositions with a working reporter, thus gaining confidence and skill.

Students shall pass three (3), five-minute tests with 95% accuracy at each of the following speeds: 225 wpm testimony (two-voice), 200 wpm jury charge, and 180 wpm literary. Students shall complete at least 40 verified hours of actual writing time during the internship experience.

Tuition only: (all 3 courses): $7,980

This Court Reporting program is approved by the National Court Reporters Association.
**Legal Administrative Specialist**  
*B072000 - 1050 hours (approx. 10 months - full time)*

**Delivery Method:** Traditional/Distance

The purpose of this program is to prepare students for employment as a Legal Administrative Specialist, Information Technology Assistant, Front Desk Specialist, and Administrative Support.

The program prepares individuals to perform legal office duties utilizing knowledge of legal terminology and legal office procedures; to transcribe legal documents; to perform legal office functions; to produce quality work using advanced features of business software applications; to research job opportunities; and to produce high quality employment portfolios and job-seeking documents.

After successfully completing the program, the student will be able to perform legal office activities and will have developed skills in keyboarding, records management, communications, human relations, transcription, computer applications, and decision making.

Tuition only: $2,940

---

**Medical Administrative Specialist**  
*B070300 - 1050 hours (approx. 10 months)*

**Delivery Method:** Traditional/Distance

The program prepares students for employment as medical secretaries, medical office clerks, medical insurance secretaries, medical records clerks, and medical administrative specialists. Students learn to perform medical office duties utilizing a knowledge of medical terminology and medical office procedures; to transcribe medical documents; to perform medical office functions using specialized medical scheduling/billing software; to produce quality work using advanced features of business software applications; to research job opportunities; and to produce high quality employment portfolios and job-seeking documents.

After successfully completing the program, the student will be able to perform medical office activities and will have developed skills in keyboarding, records management, communications, human relations, transcription, computer applications, and decision making.

Tuition only: $2,940
Central Sterile Processing Technician
H170222 - 650 hours (approx. 6 months)

Delivery Method: Traditional/Hybrid.

This program is designed to prepare students for employment in hospitals or surgical out-patient centers to work as sterile processing technicians, central supply workers, medical equipment preparers, material management workers, and inventory technicians. Students will be taught a variety of skills and competencies using supplies, instruments, and equipment available in the classroom and lab that are similar to those used in the field. Skills covered include how to decontaminate, prepare and sterilize instrument trays for surgical procedures; disinfect patient care equipment and the various methods of inventory control; and storage and distribution of sterile supplies and equipment. A clinical externship in a hospital or outpatient facility is included in the program.

Tuition only: $1,820
**Dental Assisting Technology & Management**  
H170113 - 1230 hours (approx. 12 months)  
**ATD - APPLIED TECHNOLOGY DIPLOMA**

Delivery Method: Traditional

The program provides the Dental Assisting student with the basic knowledge and ability to offer direct chair side assistance to the dentist, expose dental radiographs, and educate and instruct patients in preventive dental techniques. Students are trained in infection control procedures, disease prevention, dental procedures and instruments, and business office procedures.

Upon successful completion of the program and in accordance with state guidelines, students are issued an Applied Technology Diploma in Dental Assisting Technology and Management with Expanded Duties and Dental Radiography.

The program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of “approved without reporting requirements”. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission’s web address is: http://www.ada.org/en/coda.

**Note:** High School or High School Equivalency Diploma is required for entry into this program.

Tuition only: $3,444

---

**Electrocardiograph Technology**  
H170208 - 465 hours (approx. 4 months)

Delivery Method: Traditional/Hybrid

The program prepares students to become EKG/Cardiovascular Technicians who can work in a variety of healthcare facilities including hospitals, nursing homes, clinics, and physician’s offices.

Students will learn how to perform a 12-lead EKG, properly maintain diagnostic equipment, recognize normal and abnormal sinus rhythms, and monitor patients for cardiovascular disorders.

An overview of anatomy and physiology, with emphasis on cardiac and vascular systems is taught, along with medical terminology, basic patient care techniques, medical instrumentation, cardiac monitoring and testing, and cardiac wellness and rehabilitation.

Tuition only: $1,302
Hemodialysis Technician  
H170207 - 600 hours (approx. 6 months)  
Delivery Method: Traditional/Hybrid

The Hemodialysis program is designed to prepare students for employment as Hemodialysis Technicians or Dialysis Technicians. Areas of study include: infection control procedures, bloodborne diseases (HIV/AIDS/HBV), renal health and illness concepts, recognition of complications and emergency conditions, CPR/BLS, safety and security measures/procedures, dietary regimens, psychosocial problems, medical terminology, anatomy and physiology, domestic violence, legal and ethical issues, HIPPA, and communication and interpersonal skills.

The Hemodialysis Technician is an integral part of the dialysis team. They usually serve in two (2) capacities: the assembly and maintenance of the dialysis equipment and direct patient healthcare. The technician works with all members of the dialysis team but is most closely aligned with nurses who delegate and supervise patient care.

Note: High School or High School Equivalency Diploma is required for clinicals.

Tuition only: $1,680

Medical Assisting  
H170515 - 1300 hours (approx. 12 months)  
Delivery Method: Traditional/Hybrid

The Medical Assisting program provides students with the opportunity to learn the skills and techniques necessary to become a medical assistant and obtain employment in a variety of healthcare facilities.

This multi-skilled health professional is trained in clerical and medical office procedures, phlebotomy, EKG, X-Ray, basic patient care techniques, and laboratory procedures.

Medical Assistants perform routine administrative and clinical tasks to keep the offices and clinics of physicians, podiatrists, chiropractors, and optometrists running smoothly. They are involved in direct patient care and assist the physician or other health professional during examinations.

Tuition only: $3,640
**Medical Coder/Biller**

**H170530 - 1110 hours (approx. 10 months)**

**ATD - APPLIED TECHNOLOGY DIPLOMA**

Delivery Method: Traditional

The Medical Coder/Biller program is a comprehensive program that prepares students for employment as entry-level coder/billers. The main role of a Medical Coder/Biller is to review patient medical records and assign codes to diagnoses and procedures performed by healthcare providers so that the treating medical facility can bill insurance for reimbursement. The Medical Coder/Biller is responsible for the accurate flow of medical information and patient data between physicians, patients, and third-party payers. Most Medical Coder/Billers work on-site in hospitals, clinics, physician offices, and for insurance companies. With the introduction of the Electronic Health Record (EHR), experienced medical coders may have opportunities to work from home. An Applied Technology Diploma is awarded to students upon successful completion of the program in accordance with state guidelines.

**Note:** High School or High School Equivalency Diploma is required for entry into this program.

Tuition only: $3,108

---

**Mental Health Technician**

**H180100 - 480 hours (approx. 5 months)**

Delivery Method: Traditional/Hybrid

Students will be trained for employment as Mental Health Technicians, Psychiatric Aides, or Technicians and Nursing Assistants. Mental Health Technicians work in a variety of healthcare facilities under the supervision of a psychiatrist, registered nurse, counselor, or social worker and participate in the development and implementation of therapeutic treatment plans for patients with mental health issues. Students will receive training in physical assessment, psychiatric and substance abuse disorders, developmental disabilities, health/wellness education, crisis intervention, and basic nursing assistant skills. Upon successful completion of the program, students will have the opportunity to take the Certified Nursing Assistant examination given by the Florida Board of Nursing.

Tuition only: $1,344
Orthopedic Technology
H170800 - 800 hours (approx. 8 months)

Delivery Method: Traditional/Hybrid

Students will be taught the skills and techniques necessary to be employed working with orthopedic physicians to treat patients in a variety of health care settings. The program provides the skills and knowledge needed to become a competent orthopedic technologist performing the following services: routine office and departmental procedures; applying, adjusting and removing casts, splints, and braces; setting up, adjusting, and maintaining traction configurations; assisting with the care of acutely injured patients; and assisting the physician in the reduction and/or manipulation of orthopedic injuries. Graduates may be employed in hospitals, clinics, and private practice offices.

Tuition only: $2,240

Pharmacy Technician
H170700 - 1050 hours (approx. 10 months)

ATD - APPLIED TECHNOLOGY DIPLOMA

Delivery Method: Traditional/Hybrid

Pharmacy Technicians generally work under the supervision of a registered pharmacist and perform tasks related to receiving, dispensing, distributing, controlling, maintaining, compounding, manufacturing, packaging, and labeling of pharmaceutical products. Currently, pharmacy technicians are assuming more responsibility for the routine tasks previously performed by pharmacists, and will be responsible for mastering new pharmacy technology skills. Opportunities for advancement will vary with the pharmacy technician’s employer.

Upon successful completion of the Pharmacy Technician program and in accordance with state guidelines, students earn an Applied Technology Diploma.

Note: High School or High School Equivalency Diploma is required for entry into this program.

Tuition only: $2,940

Pharmacy Technician is a PTCB - Recognized Education/Training Program
**Practical Nursing**  
H170607- 1350 hours (approx. 12 months)  
**ARTHUR ASHE, JR. CAMPUS ONLY**

Delivery Method: Traditional

The Practical Nursing (PN) program prepares students to participate in the planning, implementation and evaluation of nursing care in hospitals and extended care facilities. Nursing is a profession in which knowledge, skills, and judgment are critical. Teachers integrate lecture and laboratory instruction with clinical practice. PN students are introduced to the clinical area early in the program and it is essential that the PN student have his/her own transportation.

Practical Nursing classes are offered during the day on a schedule established at the outset of each school year. All classes offered at Atlantic Technical College and Technical High School are full-time.

A certificate is issued at the successful completion of the Practical Nursing program in accordance with state guidelines. Graduates are eligible to take the NCLEX-PN licensure examination. The Florida State Board of Nursing will issue a license to those who pass the examination.

In accordance with the Florida Board of Nursing, The Broward County Public School District Practical Nursing Program is accredited by:

**Accreditation Commission for Education in Nursing, Inc. (ACEN)**  
3343 Peach Tree Rd., NE • Ste. 850  
Atlanta, GA 30302  
Phone: 404-975-5000 • Fax: 404-975-5020  
www.acenursing.org

State License: Licensed Practical Nurse

Program Courses:
- PRN0098 Practical Nursing Foundations 1 - 300 hours
- PRN0099 Practical Nursing Foundations 2 - 300 hours
- PRN0290 Medical Surgical Nursing 1 - 300 hours
- PRN0291 Medical Surgical Nursing 2 - 300 hours
- PRN0690 Comprehensive Nursing and Transitional Skills - 150 hours

Additional fees associated with program attendance:
- Physical Exam - annual fee varies by provider
- Tuberculin (PPD) 2-Step (X2) or Chest X-Ray - annual fee varies by provider
- Drug Testing (Authorized Lab only) $38
- Level 2 Background Check (Approved Vendor Only) $45
- Compliance Tracking Subscription (Approved Vendor Only) $18
- ATI TEAS Test Fee $60

Fees associated with licensure:
- $110 Application and Licensing Fee to Board of Nursing
- $200 to Pearson Vue, Testing Vendor
- Fee varies for LiveScan Services Provider

Note: High School or High School Equivalency Diploma is required for entry into this program. Specialized orientation and testing is also required.

Tuition only: $3,780
Hospitality & Tourism
Doris Gonzalez I Certified School Counselor I 754-321-5188

Professional Culinary Arts & Hospitality
N100500 - 1200 hours (approx. 12 months)

Delivery Method: Traditional

For the individual who is looking to work in the hospitality industry, our program is an all-inclusive, practical, hands-on experience for volume food preparation. We immerse the future professional in many aspects of the commercial food industry. Students will be taught through hands-on experiences in setting-up banquets and daily food preparation, including hors d’oeuvres, smoking meats, charcuterie, along with baking and pastry basics.

We are a comprehensive, fast-paced classroom where all competencies help to prepare the serious individual for entry level employment in various commercial food service establishments. Our students learn the critical importance of sanitation through attaining their ServSafe Food Safety Manager certification, as well as through nutrition basics and restaurant management within the courses.

Students must complete the core competencies before progressing to other courses.

Tuition only: $3,360

Courses included in the Culinary Arts Program

The following blended (online and classroom) courses are National Restaurant Association Education Foundation (NRAEF) Manage First Programs. They are included in the Professional Culinary Arts & Hospitality program. These courses are accepted by the American Culinary Federation Education Foundation (ACFEF). Upon completion of each course and passing an optional exam, the student receives a National Certification.

- Human Resources Management & Supervision
- Nutrition
- Sanitation

This program is accredited by the Accrediting Commission of the American Culinary Federation Education Foundation (ACFEF)
**Applied Information Technology**  
Y300400 - 600 hours (approx. 6 months)

Delivery Method: Distance

This program prepares students for a variety of careers in the Information Technology area. The content includes, but is not limited to, computer application skills including computer hardware, software applications, systems support and maintenance, and network concepts.

After successfully completing this program the student will be able to perform computer support services tasks and be prepared to enter a specialized Information Technology career cluster program at an advanced, accelerated level.

Tuition only: $1,680

---

**Database Application Development and Programming**

Y700300 - 1200 hours (approx. 12 months)

Delivery Method: Traditional/Distance

Database Application Development & Programming is an Approved Oracle Internet Academy

The program prepares students for employment as computer programmer assistants, computer programmers and database programmers, or to provide supplemental training for persons previously or currently employed in these fields.

The content of this program includes, but is not limited to, the fundamentals of programming and software development; procedural and object-oriented programming; creating regular and specialized applications using standard and extended Structured Query Language (SQL), PL/SQL and JavaScript, including testing, monitoring, debugging, documenting, and maintaining database applications.

Tuition only: $3,360
Game/Simulation/Animation Programming
B082300 - 600 hours (approx. 6 months)

Delivery Method: Traditional/Distance

The program prepares students for employment in careers such as a Game/Simulation Designer, Game Programmer, and Game Software Developer.

The content includes, but is not limited to, practical experiences in game/simulation conceptualization, design, storyboarding, development methodologies, essential programming techniques, animation, using game engines, and implementation issues. Specialized programming skills involving advanced mathematical calculations are also integrated into the curriculum.

Tuition only: $1,680

Network Support Services
B078000 - 1050 hours (approx. 10 months)

Delivery Method: Traditional/Distance

Network Support Services is an Approved Cisco Networking Academy

The program prepares students for employment in network administration as Network Support Specialists. The individual learns to create, monitor, and maintain computer networks and operate computers and peripheral equipment. Laboratory activities are an integral part of this program. Activities include building and maintaining computers, installing operating systems, configuring routers and switches, and demonstrating mastery through culminating case studies.

Earn your Industry Certifications and develop hands-on skills to give you a competitive edge in the IT field.

Tuition only: $2,940
Web Development
Y700100 - 1050 hours (approx. 10 months)

Delivery Method: Traditional/Distance

The program prepares students for employment as a Web Designer, a Web Designer/Graphic Designer, and an Assistant Web Designer, or to provide supplemental training for persons previously or currently employed in any of these occupations.

Web Development offers a broad foundation of knowledge and skills to prepare students to design, code, and publish websites that can work with mobile technology, tablets, and desktop formats.

After successfully completing this program, the student will be able to design dynamic and responsive websites and apply their knowledge of website design and coding principals, website management, and digital marketing techniques.

Tuition only: $2,940

Manufacturing
Vania Depasse-Humphrey | Certified School Counselor | 754-321-5167

Machining Technologies
J200100 - 1500 hours (approx. 14 months)

Delivery Method: Traditional

The program consists of specialized classroom instruction, along with projects and lab experiences, that focus on the machining of metals. Students learn how to set up and operate the following types of machines: contour saw, drill press, lathe, milling machine grinder, and CNC (Computerized Numerical Control) machines. Instruction also includes the use of precision measuring instruments, such as, layout and inspection tools, micrometers, and gauges. Classroom and practical experiences teach students CNC programming, use of CAD/CAM (Computer Aided Design/Computer-Aided Manufacturing) processes, and to set up and perform advanced level machining operations. Related trade math and blueprint reading are taught as a part of the program and are used extensively in laboratory activities.

CAD/CAM processes and CNC machining play an increasingly important role in manufacturing and are integral to the engineering and manufacturing process. A focus of the machining program is the development of the CAD/CAM and CNC machining knowledge and skills necessary to perform the tasks to meet the requirements of manufacturers.

The machinery and materials used are those commonly found in the machine tool industry. Instruction is provided in safe practices, which are critical in this industry, and the use of tools, equipment, materials, and processes found in the machining industry.

Tuition only: $4,200
**Welding Technology**  
J400400 - 1050 hours (approx. 11 months)  
Delivery Method: Traditional

This Welding Technology program teaches students to use gas and electric welding equipment with various machinery. Students will receive hands-on training working with aluminum, stainless, and milled mild steel. Applied math and blueprint reading skills that are necessary for success in the welding industry are also taught. Launch your career in demanding fields including: construction, marine, aviation, manufacturing, and many more. Students who show skill mastery are eligible to take the AWS (American Welding Society) certification exam at an additional cost. Taking and passing industry recognized certification exams shows employers you are Job Ready!

Instruction also includes classroom and practical experiences to teach students to fabricate and weld sheet metal, plate, and perform basic fabrication in the area of basic welding. Safety instruction is provided throughout the program and safe practices and procedures are stressed in all lab situations.

Tuition only: $2,940

---

**Transportation, Distribution & Logistics**  
Brooke Lehmejian | Career Advisor | 754-321-5266

All automotive programs are certified as Master Training Programs by the ASE Education Foundation.

**Advanced Automotive Service Technology**  
*Toyota Technician Training & Education Network (T-TEN)*  
1470604 - 2400 hours - (24 months)  
Delivery Method: Traditional

This program is a partnership between Toyota Motor North America, Inc. (TMNA); Southeast Toyota Distributors; Atlantic Technical College; and Broward College, and students who recognize the need for state-of-the-art automotive education. This recognition, coupled with extensive Toyota support, results in a program that breaks new ground in automotive technology and technical training.

Students are trained on Toyota/Lexus products, using advanced automotive theory, practical classroom applications, and direct dealership experiences, working alongside qualified Toyota/Lexus technicians. The instructional format is similar to that used in the Automotive Service Technology Program, however, the content is specific to Toyota/Lexus products, using Toyota/Lexus automotive vehicles, trainers, parts, tools and curriculum materials. Instruction also coincides with the eight (8) areas of professional technician certification recognized by the ASE Education Foundation.

T-TEN students must take ASE Certification exams during their time in the program and pass a minimum of two (2) ASE areas prior to completing the program. Students must also participate in an internship at a Toyota/Lexus dealership under the supervision of a Certified Toyota/Lexus Technician and the Program Teacher-Coordinator.

Note: High School or High School Equivalency Diploma is required for entry into this program.

Tuition only: $6,720
**Automotive Collision Technology Technician**
*T401300 - 1400 hours (approx. 14 months)*

Delivery Method: Traditional

This program is an ASE Education Foundation Certified Master Collision Repair and Refinish Training Program, specializing in classroom and laboratory experiences concerned with all phases of the repair of damaged vehicle bodies and fenders, including straightening by hammering; smoothing areas by filling, grinding, or sanding; concealment of imperfections; painting; replacement of body parts and components including glass; frame and unibody squaring and aligning; paint systems and undercoats; related welding and mechanical skills; and trim hardware installation and maintenance.

Instruction and training includes use of parts and repair manuals, price lists, flat-rate manuals, computerized systems for estimating and pricing; recordkeeping; and shop safety, and housekeeping. Students will receive comprehensive instruction in the five (5) areas of specialization recognized by the ASE Education Foundation for professional technician certification. Students are encouraged to participate in the ASE Certification testing program during their training.

The program uses eco-friendly basecoat solvent which reduces emissions by 90%.

Tuition only: $3,920

**Automotive Service Technology**
*I470608 - 1800 hours (approx. 18 months)*

Delivery Method: Traditional

Instruction in the program includes specialized classroom and laboratory experiences in all phases of the maintenance and repair of automotive vehicles. Students are trained in the use of technical and flat-rate information systems, both electronic and print, as well as a variety of hand and power tools. Instruction and practice are provided in the diagnosis of malfunctions; disassembly of systems; parts inspection; engine overhaul and repair; ignition systems; emission control systems; fuel systems; brakes; transmissions; front-end alignment and repair; engine performance; and the installation of a variety of accessories. Training also includes the use of electronic, diagnostic and other test equipment. Specialty training is provided in such areas as air conditioning, front-end alignment, and the use of computerized automotive repair data systems.

Instruction aligns with the eight (8) areas recognized by the National Institute of Automotive Service Excellence (ASE), and students are encouraged to participate in the ASE Certification testing program during their training.

Tuition only: $5,040
Avionics Systems Technician
T400310 - 1200 hours (approx. 12 months)

Delivery Method: Traditional

Be part of the exciting aviation industry! Avionics Systems Technicians are specialists who repair and maintain a plane’s electronic instruments, such as radio communication devices and equipment, radar systems, and navigation aids. Avionics is a specialization within electronic maintenance and repair. It focuses on aircraft electronics, but encompasses a wide range of job types. An avionics technician is a specialist who is responsible for all the electronics aboard an aircraft as well as the wiring that connects to the electrical system. They run cables, mount antennas, and connect instruments for navigation and engine monitoring. Avionics technicians install radios, autopilots, and passenger entertainment systems. The job demands attention to detail and a commitment to the very highest standards of quality workmanship because they work on flight-critical systems that impact passenger and crew safety.

Avionics Systems Technicians:

- Test electronic instruments, using circuit testers, oscilloscopes, and voltmeters
- Interpret flight test data to diagnose malfunctions and performance problems
- Assemble components, such as electrical controls and junction boxes, and install software
- Install instrument panels, using hand tools, power tools, and soldering irons
- Repair or replace malfunctioning components
- Keep accurate records of maintenance and repair work

Tuition only: $3,360
EXCEPTIONAL STUDENT EDUCATION PROGRAMS

Adult Curriculum for Community, Employment & Social Skills (ACCESS) is a community-based transition class for 18-22 year old students with disabilities who have deferred their standard diploma. Students are exposed to a variety of work-related tasks, then are exposed to the same work tasks in the real work settings. Students also increase functional living activities such as independent shopping, budgeting, and social communication skills that will help them to build independence in the world of work and within their community. Program staff and families work together to design an individualized transition plan based on student needs and interests. Students who complete the program are often ready for competitive employment positions and have the skills needed to participate in community activities independently.

Career Placement is a transition service for 18-22 year old students with disabilities who have deferred their standard diploma. Students in this class must have an interest in paid competitive entry level employment, demonstrate readiness to work, and have the desire or ability to navigate the community independently and safely. This course focuses not only on finding and maintaining paid employment, but also on managing money, paying bills, and developing life skills along with creating a career plan which may include further education or training. We help students to define what is needed to make that next step happen. Some of the students participating in Career Placement will earn entry level industry certifications based on their work site requirements.

LIFELONG LEARNING COURSES

Introduction to Microsoft Office 2016 - approx. 120 hours of Saturday instruction offered from August - June. Students will enroll during each nine (9) week term. Each nine (9) weeks will focus on a different level of the Microsoft Office 2016 suite including, Word, Excel, Access, and PowerPoint.

Intermediate Microsoft Office 2016 - approx. 120 hours of Wednesday instruction offered from August - June. After taking the Introduction to Microsoft Office 2016 course, go beyond the basics of Microsoft Office software, including Word, PowerPoint, and Excel.

QuickBooks - approx. 138 hours of Thursday evening instruction offered from August - June. Students will enroll during each nine (9) week term. Fundamental concepts and procedures of QuickBooks for automated bookkeeping. Prerequisite: Bookkeeping Fundamentals or experience in bookkeeping field.
Industry Certifications improve your chances for employment!

Students will be prepared to take an approved state and/or nationally recognized industry certification or licensure exam in their field of study. Students who take and pass their exam(s) may be eligible to receive reimbursement for the cost of their exam(s). Conditions apply - see your Certified School Counselor/Advisor for details. Below is a partial list of certifications available to ATC students. Please be advised that this list is subject to change.

- Adobe Certified Associate (ACA):
  - Flash
  - Photoshop Creative Cloud
  - Dreamweaver
  - Illustrator
  - InDesign
  - Premiere Pro
- Aerospace/Aircraft Assembly (AAA)
- Aircraft Electronic Technicians (AET)
- Associate Certified Electronics Technician (CETa)
- Automotive Service Excellence (ASE)
  (Individual Certified ASE Exams through Master Tech)
- Avionics Electronics Technician
- Certified Drafter – Architecture (ADDA)
- Certified Clinical Hemodialysis Technician (CHT)
- Certified Coding Associate (CCA)
- Certified Dental Assistant (CDA)
- Certified EKG Technician (CET)
- Certified Food Protection Manager (ServSafe®)
- Certified Internet Web (CIW)
  - Network Technology Associate
  - Database Design Specialist
  - Java Script Specialist
- Certified Clinical Medical Assistant (CCMA)
- Certified Medical Administrative Assistant (CMAA)
- Certified Registered Central Service Technician (CRCST)
- Certified Solidworks Professional - Academic (CSWP)
- Cisco Certified Entry Network Technician (CCENT)
- Cisco Certified Network Associate (CCNA)
- CompTIA (Computer Technology Industry Association)
  - Network+
  - Security+
  - Server+
- EPA for HVAC
- Food Service Management Professional (FMP)
- Florida Expanded Duties and Dental Radiography
- HVAC Excellence: Electric Heat;
  - 608 Universal; R-410A
  - Electrical; Gas Heat; Heat Pump;
  - Light Commercial A/C & Refrigeration
- Licensed Practical Nurse (LPN) (NCLEX)
- MasterCam Associate Certification
- Mill Design & Tool Paths
- Microsoft Office Specialist (MOS)
- Microsoft Office Master
- Microsoft Technology Associate (MTA)
  (IT Infrastructure & Database)
- NCCER:
  - Core
  - Carpentry I & 2
- NIMS: CNC Mill Operations
- Oracle Certified Associate (OCA) Database
- Orthopaedic Technologist Certified (OTC)
- OSHA 10 Hour Safety Course
- Pharmacy Technician (CPhT)
- Quickbooks Certified User
- Welder
  - 3G, 4G FCAW
  - 3G, 4G SMAW

Certifications/Licensure Exams

Atlantic Technical College is a Pearson VUE and Certiport Authorized Testing Center. Pearson VUE and Certiport offer innovative computer-based testing solutions through secure electronic test delivery.
