Certification Reimbursement Plan

Pass a State approved industry certification exam aligned to your program of study and we will help you pay for it (conditions apply).

College Credit Eligibility

In many programs, students who have met all eligibility requirements to become a program graduate may also be awarded college credits from Broward College and other Florida state colleges/community colleges toward an AS or AAS Degree. Students must enroll within two (2) years of completing their program at Atlantic Technical College. See your program counselor/advisor for details and conditions.

Guarantee for Success

Atlantic Technical College and Technical High School (ATC) is committed to teaching the skills you need for the career you desire. We are proud to stand behind our graduates and the education they receive. To demonstrate our support, we offer the Guarantee for Success Plan. If a graduate of ATC does not pass the identified, entry-level, industry certification test in his or her field of study, the student is invited to return for additional training and/or test preparation at no additional cost. See the program counselor/advisor for details and conditions.

Health Science and Practical Nursing

754-321-5187 | Main Campus
754-322-2818 | Arthur Ashe, Jr. Campus

NOTE: In accordance with requirements set forth by the Joint Commission and the Jessica Lunsford Act, students applying for entrance into any Health Science program must submit to a Level 2 criminal background check and take a drug screening test. This requirement is mandated due to the fact that all Health Science students must participate in a clinical rotation in a healthcare facility as a part of their training.

The applicant is responsible for paying for the costs of both tests. The results of these tests may prevent the applicant from either entering or remaining in a Health Science program. Students who are not cleared on their background check or test positive for illegal drugs will not be allowed access to healthcare facilities for clinical externships and therefore will not be able to complete the program.

In addition to a background check and drug screening, all students registering for any of the Health Science programs are required to have current immunizations and a yearly physical exam.

Prospective students who do not have a valid Social Security Number may encounter difficulties within licensure programs. Please contact the program counselor for specific information.

Additionally, all students entering or re-entering the Practical Nursing program must take the Test of Essential Academic Skills (TEAS) and meet minimum requirements.

CENTRAL STERILE PROCESSING TECHNICIAN

650 HOURS/APPROX. 6 MONTHS - FULL TIME

DELIVERY METHOD: TRADITIONAL/HYBRID

This program is designed to train and prepare students to work as sterile processing or central supply technicians in a hospital or surgical out-patient setting. Students will be taught a variety of skills and competencies to effectively decontaminate, prepare, disinfect and sterilize instrument trays for surgical procedures. Students will also learn the various methods of inventory control and how to manage the storage and distribution of sterile supplies and patient care equipment.

Central Sterile Processing Technicians are an essential part of the healthcare team and serve as key individuals in preventing infections and the spread of disease in hospitals and surgical centers. A clinical externship is included in the program.

NEXT CLASS BEGINS: August 2020

AVIONICS SYSTEMS TECHNICIAN

1200 HOURS/APPROX. 12 MONTHS - FULL TIME

DELIVERY METHOD: TRADITIONAL

**NEW PROGRAM!!**

Be part of the exciting aviation industry! Avionics Systems Technicians are specialists who repair and maintain a plane's electronic instruments, such as radio communication devices and equipment, radar systems, and navigation aids. Avionics is a specialization within electronic maintenance and repair. It focuses on aircraft electronics, but encompasses a wide range of job types. An avionics technician is a specialist who is responsible for all the electronics aboard an aircraft as well as the wiring that connects to the electrical system. They run cables, mount antennas, and connect instruments for navigation and engine monitoring. Avionics technicians install radios, autopilots, and passenger entertainment systems. The job demands attention to detail and a commitment to the very highest standards of quality workmanship because they work on flight-critical systems that impact passenger and crew safety.

Avionics Systems Technicians:

- Test electronic instruments, using circuit testers, oscilloscopes, and voltmeters
- Interpret flight test data to diagnose malfunctions and performance problems
- Assemble components, such as electrical controls and junction boxes, and install software
- Install instrument panels, using hand tools, power tools, and soldering irons
- Repair or replace malfunctioning components
- Keep accurate records of maintenance and repair work

NEXT CLASS BEGINS: August 2020

APPRENTICESHIP

754-321-5261 | Main Campus

Apprenticeship is a method of training individuals in a trade using a combination of on-the-job skills development and classroom/lab related instruction. There are both union and non-union programs. Apprenticeship training programs in Florida operate in accordance with Federal and State laws and rules.

Apprenticeship training offers the individual a chance to “earn while you learn.” In addition to a paid 40 hour on-the-job training work week under the supervision of a journey person, apprentices are required to attend related training on selected evenings and/or weekends.

Wage increases are granted as the apprentice gains time in training and acquires experience.

Apprenticeship training programs vary in length depending on the trade and can take from three (3) to five (5) years to complete.

Atlantic Technical College serves as the Apprenticeship LEA (Local Educational Agency) for Broward County Public Schools, and coordinates the largest apprenticeship training program in Florida.

Apprenticeship training programs include:

- Brick and Block Masonry (Bricklayer)
- Carpentry (Carpenter)
- Commercial Sign Design and Fabrication (Decorator Trade Show)
- Electrician
- Elevator Constructor/Mechanic
- Glazing (Glaziers)
- Heating, Ventilation, Air-Conditioning, Refrigeration (HVAC/R) (Heating & AC Installer/Service)
- Heavy Equipment Operation (Operating Engineers)
- Industrial Pipefitter (Sprinkler Fitter/Pipefitter)
- Line Erector (Lineman)
- Machining (Machinist)
- Maintenance Repair, Building (Step-Up)
- Painting and Decorating (Painter)
- Plumbing Technology (Plumber & Pipefitter)
- Roofing
- Structural Steel Work (Ironworker)
- Yacht Service Technician

Note: The Council on Occupational Education (COE) does not accredit avocational programs such as ESOL, ABE, GED® Test Preparation, AAAE or Apprenticeship. In addition, these programs do not qualify for Title IV financial aid assistance.

CERTIFICATION/LICENSURE EXAMS

Industry credentials improve your chances for employment!
