### Certification Reimbursement Plan

Pass a State approved industry certification exam aligned to your program of study and we will help you pay for it. See your program counselor/advisor for details and conditions.

### College Credit Eligibility

In many programs, students who have met all eligibility requirements to become a program graduate may also be awarded college credits from Broward College and other Florida state colleges/community colleges toward an Associate Degree. Students must enroll within two (2) years of completing their program at Atlantic Technical College. See your program counselor/advisor for details and conditions.

### Guarantee for Success

Atlantic Technical College and Technical High School (ATC) is committed to teaching the skills you need for the career you desire. We are proud to stand behind our graduates and the education they receive. To demonstrate our support, we offer the Guarantee for Success Plan. If a graduate of ATC does not pass the identified, entry-level, industry certification test in his or her field of study, the student is invited to return for additional training and/or test preparation at no additional cost. See your program counselor/advisor for details and conditions.

## Health Science and Practical Nursing | 754-321-5187 | Main Campus 754-322-2818 | Arthur Ashe, Jr. Campus

**NOTE:** In accordance with requirements set forth by the Joint Commission, students applying for entrance into any Health Science program must submit to a Level 2 criminal background check and take a drug screening test. This requirement is mandated due to the fact that all Health Science students must participate in a clinical rotation in a healthcare facility as a part of their training. The applicant is responsible for paying for the costs of both tests. The results of these tests may prevent the applicant from either entering or remaining in a Health Science program. Students who are not cleared on their background check or test positive for illegal drugs will not be allowed access to healthcare facilities for clinical externships and therefore will not be able to complete the program. In addition to a background check and drug screening, all students registering for any of the Health Science programs are required to have current immunizations and a yearly physical exam. Prospective students who do not have a valid Social Security Number may encounter difficulties within licensure programs. Please contact the program counselor for specific information. Additionally, all students entering or re-entering the Practical Nursing program must take the Test of Essential Academic Skills (TEAS) and meet minimum requirements.

Students are taught the skills necessary for employment as hemodialysis technicians or dialysis technicians. Hemodialysis technicians have been members of the dialysis team since the beginning of the dialysis program. They usually serve in two (2) capacities; one involves the assembly and maintenance of the dialysis equipment and the other focuses on patient care. Often the hemodialysis technician duties will combine both the patient care and equipment care responsibilities. The technician works with all members of the dialysis team but is most closely aligned with a nurse who delegates and supervises patient care.

**Program Cost:** \$3,559 (approximate tuition & fees)  
**Program Offered:** August  
**Delivery Method:** Traditional - 100% classroom based

The Medical Coder/Biller program is a comprehensive program that prepares students for employment as entry-level coder/billers.

The main role of a medical coder/biller is to review patient medical records and assign codes to diagnoses and procedures performed by healthcare providers. The treating medical facility can bill insurance for reimbursement based on these codes. The medical coder/biller is responsible for the accurate flow of medical information and patient data between physicians, patients and third-party payers. Most medical coder/billers work on-site in hospitals, clinics, physician offices and for insurance companies.

With the introduction of the electronic health records (EHR), experienced medical coders may have the opportunity to work from home.

### AVIONICS SYSTEMS TECHNICIAN

**Program Length:** 1200 Hours (approximately 12 months full-time)  
**Program Cost:** \$3,795 (approximate tuition & fees)  
**Program Offered:** January  
**Delivery Method:** Traditional - 100% classroom based

Avionics Systems Technicians are specialists who repair and maintain a plane's electronic instruments, such as radio communication devices and equipment, radar systems, and navigation aids. Avionics is a specialization within electronic maintenance and repair. It focuses on aircraft electronics but encompasses a wide range of job types. An avionics technician is a specialist who is responsible for all the electronics aboard an aircraft as well as the wiring that connects to the electrical system. They run cables, mount antennas, and connect instruments for navigation and engine monitoring. Avionics technicians install radios, autopilots, and passenger entertainment systems. The job demands attention to detail and a commitment to the very highest standards of quality workmanship.

Avionics Systems Technicians:

- test electronic instruments, using circuit testers, oscilloscopes, and voltmeters.
- interpret flight test data to diagnose malfunctions and performance problems.
- assemble components, such as electrical controls and junction boxes, and install software.
- install instrument panels, using hand tools, power tools, and soldering irons.
- repair or replace malfunctioning components.
- keep accurate records of maintenance and repair work.

## ***APPRENTICESHIP*** | 754-321-5261

**Note: The Council on Occupational Education (COE) does not accredit avocational programs such as ESOL, ABE, GED® Test Preparation, AAEE or Apprenticeship. In addition, these programs do not qualify for Title IV financial aid assistance.**

Apprenticeship is a method of training individuals, in a trade, using a combination of on-the-job skills development and classroom/lab related instruction. Atlantic Technical College serves as the Apprenticeship Local Educational Agency (LEA) for Broward County Public Schools and coordinates the largest number of apprenticeship training programs in Florida, operating in accordance with federal and state laws and rules.

Apprenticeship training offers the individual a chance to “earn while you learn.” In addition to a paid 40-hour on-the-job training work week under the supervision of a journeyperson, apprentices are required to attend related training on selected evenings and/or weekends. Wages increase as the apprentice raises their skill level through training and work experience. Apprenticeship training programs vary in length, depending on the trade and can take from two (2) to five (5) years to complete. There are both union and non-union programs.

### **Apprenticeship training programs include:**

- Carpentry (Framing & Finishing/Forms & Concrete)
- Cement Mason (Bricklayer)
- Electrician
- Elevator Constructor/Mechanic
- Glazing (Glaziers)
- Heating & AC Installer-Servicer
- Industrial Pipefitter (Sprinkler Fitter/Pipefitter)
- Line Erector (Lineman)
