Program Name: Commercial F	Foods and Culinary Arts/ Professional Culinary Arts & Hospitality		
Course Number: HMV0100/HMV0170			

Course Name: Food Preparation and Cook/ Food - Restaurant

SOC Code: 35-2021

Intended Outcomes: (From FL DOE Curriculum Framework)

The student will be able to:

01.0 Identify career and employment opportunities

02.0 Exhibit the ability to follow state mandated guidelines for food service

03.0 Demonstrate and incorporate workplace safety procedures

04.0 Demonstrate personal productivity

05.0 Utilize operational systems

06.0 Use and care for commercial tools and equipment

07.0 Describe the basic principles of food science

08.0 Demonstrate proficiency in culinary math

09.0 Describe the basic principles of nutrition.

10.0 Identify and explain front-of-the house and back of the house duties.

11.0 Prepare and present food and beverage items to meet creativity aspects as well as quality standards.

12.0 Exhibit and utilize safe, secure, and sanitary work procedures.

13.0 Apply principles of food science in cooking and baking techniques.

14.0 Apply principles of nutrition in menu planning, cooking, and baking.

15.0 Perform front-of-the-house duties.

16.0 Perform back-of-the-house and inventory duties.

17.0 Research college and career advancement opportunities in professional cooking and baking.

18.0 Follow food identification, selection, purchasing, receiving, storing, and inventory guidelines.

19.0 Practice advanced cooking and baking techniques.

Intended Outcomes from American Culinary Federation Education Foundation:

Basic Baking

The student will be able to:

- 2. Identify equipment and utensils used in baking and discuss proper use and care.
- 3. Demonstrate proper selection of equipment and utensils for specific application.
- 5. Demonstrate proper scaling and measurement techniques.
- 6. Apply basic math skill to recipe conversions.

Intended Outcomes from American Culinary Federation Education Foundation: Beverage Management

The student will be able to:

1. Evaluate the relationship of beverages to food.

Intended Outcomes from American Culinary Federation Education Foundation: Business and Math Skills

The student will be able to:

- 1. Perform basic math functions.
- 2. Calculate food costs and percentages to determine selling prices.
- 3. Perform recipe yield conversions.
- 4. Perform the process of recipe costing.
- 5. Determine selling price of menu items.

Intended Outcomes from American Culinary Federation Education Foundation: Dining Room Service

The student will be able to:

- 1. Demonstrate the general rules of table settings and service.
- 2. Describe American, English, French and Russian Service.
- 3. Discuss service methods such as banquets, buffets and catering and a la carte.
- 4. Explain inter-relationships and workflow between dining room and kitchen operations.

Intended Outcomes from American Culinary Federation Education Foundation:

Food Preparation

The student will be able to:

- 1. Demonstrate knife skills, hand tool and equipment operation, emphasizing proper safety techniques.
- 2. Identify the parts/components of a recipe.
- 3. Describe and use a standardized recipe.
- 4. Identify and use utensils, pots and pans and demonstrate safe practices using stoves, mixers, ovens, etc.
- 33. Utilize standard weights and measures to demonstrate proper scaling and measurement techniques.
- 34. Identify and use herbs, spices, oils and vinegar, condiments, marinades and rubs.

Intended Outcomes from American Culinary Federation Education Foundation:

Garde Manager

The student will be able to:

- 1. Identify tools and equipment used in Garde Manger, emphasizing safety and sanitation procedures.
- 2. Define and describe hors d'oeuvre, appetizers, and canapes.
- 3. Explain the importance of presentation and garnishing for hors d'oeuvres, appetizers, and canapes.
- 4. Prepare a variety of hors d'oeuvre, appetizers, canapes and basic garnishes.
- 5. Evaluate the quality of hors d'oeuvre, appetizers, canapes and basic garnishes.

6. Define aspic jelly and describe its functions. Demonstrate fundamental skills in the preparation and uses of aspic.

7. Evaluate the quality of aspic jelly and items coated with it.

8. Define and describe forcemeat and its various forms including pate, terrine, galantine, mousseline, and sausage.

- 9. Prepare and present a variety of forcemeat products.
- 10. Evaluate the quality of forcemeat products.
- 11. Demonstrate food presentation techniques using a variety of plates, platters and trays.
- 12. Evaluate the quality of prepared plates, platters and trays.
- 13. Produce decorative centerpieces.
- 14. Define and describe various methods in which food is preserved.
- 15. Prepare foods for preservation and prepared preserved foods.
- 16. Evaluate the quality of preserved foods.
- 17. Define and describe a variety of cheese categories.
- 18. Discuss how various cheeses are made and their uses.
- 19. Use cheese as an ingredient in recipes.
- 20. Taste various cheeses and evaluate their quality.

Intended Outcomes from American Culinary Federation Education Foundation: Human Relations Management

The student will be able to:

1. Perform mock interviews; prepare resumes, job applications and cover letters.

Intended Outcomes from American Culinary Federation Education Foundation: Introduction to the Hospitality Industry

The student will be able to:

The student will be able to:

- 1. Describe the various cuisines and contributions of leading culinarians.
- 2. Identify professional organizations within the field; explain purposes and benefits.

3. Outline the organization, structure and functional areas in various hospitality organizations as a perspective for later courses in menu planning, purchasing, food production and service, food and beverage controls, management, etc.

- 4. Evaluate career opportunities through participation in field trips and guest speakers in class.
- 5. Discuss / evaluate industry trends as they relate to career opportunities and the future of the industry.
- 6. Discuss and evaluate industry trade periodicals.
- 7. Discuss professional ethics practiced in the industry.

Intended Outcomes from American Culinary Federation Education Foundation: Menu Planning

The student will be able to:

- 1. List basic menu planning principals.
- 2. Apply principals of nutrition to menu development.
- 3. Discuss Menu Planning resources (Internet, professional and vendors).

Intended Outcomes from American Culinary Federation Education Foundation: Purchasing and Receiving

The student will be able to:

1. Explain regulations for inspecting and grading of meats, poultry, seafood, eggs, dairy products, fruits and vegetables.

2. Evaluate received goods to determine conformity with user specifications.

3. Receive and store fresh, frozen, refrigeration and staple goods. Describe the importance of receiving and inspecting product as it enters the facility.

4. Conduct yield and quantity tests on items such canned, fresh, frozen and prepared products.

- 5. Explain the procedures for rotation of stock and for costing and evaluating, including FIFO and LIFO.
- 6. Define and describe par stock.
- 7. Describe proper procedures of issuing product according to requisition.

8. Describe current computerized systems for purchasing and inventory control.

Intended Outcomes from American Culinary Federation Education Foundation: Sanitation

The student will be able to:

1. Identify microorganisms which are related to food spoilage and food-borne illnesses; describe their requirements and methods for growth.

2. List and describe symptoms common to food-borne illness and list various ways these illnesses can be prevented.

- 3. List and define the fundamentals for good personal hygiene.
- 4. Demonstrate good personal hygiene and health habits in a laboratory setting.
- 5. Demonstrate acceptable procedures when preparing potentially hazardous foods to include time/temperature principals.
- 6. List the major causes of food spoilage.
- 7. Define food spoilage indicators.

8. Outline the flow of food through an establishment and list the various ways contamination may be prevented along the pathway.

9. Outline the requirements for proper receiving and storage of both ray and prepared foods.

10. Recognize sanitary and safety design and construction features of food production equipment and facilities. (i.e., NSF, UL, OSHA, ADA, etc.).

11. Describe types of cleaners and sanitizers and their proper use.

12. Review Safety Data Sheets (SDS) and explain their requirements in handling hazardous materials. Discuss right-to-know laws.

13. Identify proper methods of waste disposal and recycling.

- 14. Describe appropriate measures for insects, rodents and pest control eradication.
- 15. Conduct a sanitation self-inspection and identify modifications necessary for compliance with standards.

16. List common causes of typical accidents and injuries in the foodservice industry and outline a safety management program.

- 17. Demonstrate appropriate emergency policies for kitchen and dining room injuries.
- 18. Describe appropriate types and use of fire extinguishers used in the foodservice area.

19. Review laws and rules of the regulatory agencies governing sanitation and safety in foodservice operation.

I have carefully read the syllabus for this course as well as the Broward Technical Colleges Student Handbook and the Commercial Foods and Culinary Arts/Professional Culinary Arts & Hospitality Program General Guidelines and Regulations. I understand the school, program, and course expectations as well as the consequences for not following these expectations.
