Program Name: Professional Culinary Arts & Hospitality				
OCPs	OCPs Course Names			
С	HMV0171, Chef/Head Cook	300		
American Culinary Federation Educational Foundation:				
ACF	Food Preparation			

Course Description:

The course is designed to instruct the student in the fundamentals of food preparation and cooking. The students will produce stocks, sauces, soups, entrees, vegetables, and starches in all the cooking methods. Emphasis will be placed on sanitation, safety, and knife skills while preparing meals for the cafeteria. Each student will be guided through the program learning the different styles of service and gain knowledge of cooking equipment.

Standards Nutrition

Technical College Policy/Adult Student Attendance:

- 2. Demonstrate acceptable procedures when preparing potentially hazardous foods to include time/temperature principles.
- 3. Demonstrate good personal hygiene and health habits in a laboratory setting to include hand washing.
- 6. List the major reasons for and recognize signs of food spoilage and contamination.
- 8. Review Safety Data Sheets (SDS) and explain their requirements in handling hazardous materials. Discuss right-to-know laws.
- 10. Demonstrate appropriate emergency policies for kitchen and dining room injuries.
- 13. Review and apply the laws and rules of the regulatory agencies governing sanitation and safety in a foodservice operation.

Intended Outcomes from American Culinary Federation Education Foundation: **Business and Math Skills**

- The student will be able to: 1. a. Perform basic math functions to include fractions, weights, and measurements.
- b. Demonstrate competency of scaling, measuring, weighing ingredients with a portion scale.
- 2. a. Evaluate the components and functions of a standardized recipe. b. Convert recipes using a yield formula to increase and decrease quantities.
- 3. Determine a butcher yield percentage to track cooking and carving loss, and determine the new yield and cost per lb.

Intended Outcomes from American Culinary Federation Education Foundation: **Food Preparation**

The student will be able to:

- 1. Identify tools, small and large equipment used in a professional kitchen and demonstrate proper handling of these items to include safety, sanitation, and storage.
- 2. Demonstrate proficiency in using knives and small wares to achieve professional quality results when producing classical knife cuts used in various food preparation and cooking.
- 3. Identify, describe, and utilize herbs, spices, and seasonings by themselves and in a combination that exemplify national and international cooking medians.
- 5. Define mise en place and demonstrate a combination of organizational skills, preparedness, and timing when it comes to food preparation, cooking and serving.
- 6. Define and describe the process for all the cooking techniques used in moist, dry and combination cooking methods to include: steam, poach, simmer, boil, deep fry, sauté, pan-fry, grill, roast, poele, stew, and braise.
- 7. Prepare and cook a variety of proteins (including beef, chicken, pork, fish, game, lamb, and veal), vegetables, legumes, grains, and starches using moist, dry and combination cooking methods.

3 | Page ATC/BB/db 8-9-2022

- 8. Evaluate and analyze the preparation of a variety of proteins (including beef, chicken, pork, fish, game, lamb and veal), vegetables, legumes, grains, and starches using moist, dry and combination cooking methods
- 9. Define, and describe the process for making classical stocks, soups, and mother and compound sauces.
- 10. Demonstrate how to prepare and cook classical stocks, soups, and mother and compound sauces.
- 11. Evaluate and analyze the preparation of classical stocks, soups, and mother and compound sauces.
- 12. Utilize safety and sanitation practices when preparing, cooking, and serving all food items in the professional kitchen.
- 13. Demonstrate the proper process in cooling, storing, labeling, and dating, and reheating food utilizing the proper Sanitary procedures when working with all food items.
- 14. Define, prepare, cook, evaluate, and assess breakfast items:
- 15. Demonstrate how to maximize food freshness, quality, safety, and sanitation when serving hot foods and cold foods.
- 16. In the preparation of food items, demonstrate effective techniques in presenting food that maximizes the flavor and esthetic quality of the products used.

Intended Outcomes from American Culinary Federation Education Foundation:

Garde Manger

The student will be able to:

- 4. Soups and Sauces: a. Identify cold soups and sauces used in the Garde Manger area of a foodservice establishment.
- b. Produce several types of cold soups and sauces using a food processor and blender.
- c. Analyze and evaluate the quality of soups and sauces produced in conjunction with the foods served.

Intended Outcomes from American Culinary Federation Education Foundation:

Beverage Management

The student will be able to:

- 3. Discuss and describe wines by grape and/or other fruit variety, country, growing region and production process.
- 4. Analyze and evaluate the importance of the on-going relationship between beverages and food and discuss that relationship in reference to menu planning.
- 5. Identify and discuss the presentation and service of alcoholic and non-alcoholic beverages, including coffee and tea.

Intended Outcomes from American Culinary Federation Education Foundation:

Purchasing & Receiving

The student will be able to:

- 1. Discuss the flow of goods in a foodservice operation and the role of ordering, receiving, and issuing.
- 3. Identify dry, refrigerated, and frozen foods used in a commercial kitchen.
- 4. List factors that affect food prices, menu costs and quality such as market fluctuation, seasonality, product availability, and supply and demand.
- 5. Explain the importance of a written food specification when ordering food and describe the components that are included in the food spec.
- 7. Describe proper techniques of receiving and storing fresh, frozen, and dry proteins, produce, eggs, dairy and dry goods.

Intended Outcomes from American Culinary Federation Education Foundation:

Nutrition

The student will be able to:

- 1. Identify and discuss dietary guidelines and recommended dietary allowances based on current USDA Food Guideline principles and food groups.
- 2. Describe primary characteristics, functions, and major food sources of major nutrients.
- 3. List the primary characteristics, functions and sources of vitamins, water, and minerals.
- 4. Interpret food labels in terms of the portion size, ingredients, and nutritional value.
- 5. Identify common food allergies and determine appropriate substitutions. (i.e., gluten, sugar, lactose free).
- 6. Evaluate and analyze recipes and menus using dietary guideline recommendations, food guides and food labels.
- 7. Discuss contemporary nutritional issues to include specialty diets, dietary trends, and religious dietary laws (i.e., vegetarianism, veganism, heart-healthy menus, food allergies, alternative dieting, etc.).
- 8. Discuss and demonstrate cooking techniques that apply sound nutritional principles and current industry trends.

4 | Page ATC/BB/db 8-9-2022

Intended Outcomes from American Culinary Federation Education Foundation: Dining Service

The student will be able to:

2. Explain the importance of communication between the front and back of the house employees.

Intended Outcomes from American Culinary Federation Education Foundation: Environmental Sustainability

The student will be able to:

1. Explain the importance of sustainable practices in a foodservice operation.

Student Acknowledgement for Chef/Head Cook HMV01710

I have carefully read the syllabus for this course as well as the Broward Technical Colleges Student Handbook and the Commercial Foods and Culinary Arts/ Professional Culinary Arts & Hospitality Program General Guidelines and Regulations. I understand the school, program, and course expectations as well as the consequences for not following these expectations.
