HEALTH SCIENCE & PRACTICAL NURSING

754.321.5187

Main Campus

754.322.2821

Arthur Ashe, Jr. campus

NOTE: In accordance with requirements set forth by the Joint Commission, students applying for entrance into any Health Science program must submit to a Level 2 criminal background check and take a drug screening test. This requirement is mandated due to the fact that all Health Science students must participate in a clinical rotation in a healthcare facility as a part of their training. The applicant is responsible for paying for the costs of both tests. The results of these tests may prevent the applicant from either entering or remaining in a Health Science program. Students who are not cleared on their background check or test positive for illegal drugs will not be allowed access to healthcare

facilities for clinical externships and therefore will not be able to complete the program. In addition to a background check and drug screening, all students registering for any of the Health Science programs are required to have current immunizations and a yearly physical exam. Prospective students who do not have a valid Social Security Number may encounter difficulties within licensure programs. Please contact the program counselor for specific information. Additionally, all students entering or re-entering the Practical Nursing program must take the Test of Essential Academic Skills (TEAS) and meet minimum requirements.

CENTRAL STERILE PROCESSING TECHNICIAN

Program Length: 650 Hours (approximately 6 months full-time)

Full Program Cost: \$2,227 (approximate tuition & fees)

Program Length:	1110 Hours (approximately 10 months full-time)
Full Program Cost:	\$3,559 (approximate tuition & fees)
Program Offered:	August
Delivery Method:	Traditional, Hybrid

The Medical Coder/Biller program is a comprehensive program that prepares students for employment as entry-level coder/billers.

The main role of a medical coder/biller is to review patient medical records and assign codes to diagnoses and procedures performed by healthcare providers. The treating medical facility can bill insurance for reimbursement based on these codes. The medical coder/biller is responsible for the accurate flow of medical information and patient data between physicians, patients and third-party payers. Most medical coder/billers work on-site in hospitals, clinics, physician offices and for insurance companies. With the introduction of electronic health records (EHR), experienced medical coder/billers may have the opportunity to work from home.

AVIONICS SYSTEMS TECHNICIAN

Program Length:	1200 Hours (approximately 12 months full-time)
Full Program Cost:	\$3,795 (approximate tuition & fees)
Program Offered:	January
Delivery Method:	Traditional

Avionics Systems Technicians are specialists who repair and maintain a plane's electronic instruments, such as radio communication devices and equipment, radar systems, and navigation aids. Avionics is a specialization within electronic maintenance and repair. It focuses on aircraft electronics but encompasses a wide range of job types. An avionics technician is a specialist who is responsible for all the electronics aboard an aircraft as well as the wiring that connects to the electrical system. They run cables, mount antennas, and connect instruments for navigation and engine monitoring. Avionics technicians install radios, autopilots, and passenger entertainment systems. The job demands attention to detail and a commitment to the very highest standards of quality workmanship.

Avionics Systems Technicians:

- Test electronic instruments, using circuit testers, oscilloscopes, and voltmeters.
- Interpret flight test data to diagnose malfunctions and performance problems.
- Assemble components, such as electrical controls and junction boxes, and install software.
- Install instrument panels, using hand tools, power tools, and soldering irons.
- Repair or replace malfunctioning components.
- Keep accurate records of maintenance and repair work.

APPRENTICESHIP

754.321.5261

Apprenticeship is a method of training individuals, in a trade, using a combination of on-the-job skills development and classroom/lab related instruction. Atlantic Technical College serves as the Apprenticeship Local Educational Agency (LEA) for Broward County Public Schools and coordinates the largest number of apprenticeship training programs in Florida, operating in accordance with federal and state laws and rules.

Apprenticeship training offers the individual a chance to “earn while you learn.” In addition to a paid 40-hour on-the-job training work week under the supervision of a journey person, apprentices are required to attend related training on selected evenings and/or weekends. Wages increase as the apprentice raises their skill level through training and work experience. Apprenticeship training programs vary in length, depending on the trade and can take from two (2) to five (5) years to complete. There are both union and non-union programs.
