

Broward County Public Schools
Career, Technical, Adult and Community Education

Broward Technical Colleges
CTE Articulation Agreements
2023-2024

WHEREAS, Broward County High Schools offer Career and Technical Education Programs that include courses which are aligned at the secondary and postsecondary levels, and

WHEREAS, Students in high school Career and Technical Education Programs may not complete all courses in a program while in high school, and

WHEREAS, Broward County Career and Technical Education students may enroll in technical courses at their home high school or at a Broward Technical College, as a career dual enrolled student wherein the student may receive transfer/articulated credit to the aligned postsecondary career and technical education program prior to graduation, and

WHEREAS, Broward County Public Schools promote the benefits of articulated programs of study that save students time and money in their pursuit of a Postsecondary Technical Certificate, and

WHEREAS, the Career and Technical Education 3 Year Plan at the high schools include a mechanism for transitioning students to Broward Technical Colleges after graduation.

Now, therefore, in consideration of the premises contained herein, the parties agree to grant credit at Broward Technical Colleges for Occupational Completion Points (OCP's) successfully completed at the high school level in the programs on the attached list.

To receive articulated credit for the courses/OCP's attained at the high school level, the student must:

Pass each course in the program with a "C" or better.

Meet with the guidance counselor at the technical college and complete the application process for entry into the specific program at one of the Broward Technical Colleges and comply with all the entry requirements. The guidance counselor at the technical college will be responsible for placing the student in the appropriate course within the postsecondary program and awarding the credit for the completed course(s)/OCP's attained.

Enroll in the articulated program within one year of graduation from high school, unless the technical college waives the time limitation.

This agreement shall remain in effect during the time the Career and Technical Education programs identified above are operating at both the secondary (high school) and postsecondary (adult) levels. The agreement will be updated periodically to reflect program changes, program additions and/or program deletions.

Neeta Rancourt, Director
