

ALUMNI

Spotlight

PROGRAM

Medical Coder/Biller

GRADUATION DATE

June, 2021

WHY DID YOU CHOOSE ATC?

ATC offered a flexible schedule that allowed me to balance my educational goals with work and family obligations.

HOW IS ATC DIFFERENT FROM OTHER SCHOOLS?

The faculty at ATC goes above and beyond to secure internships and job placement for students. They make every effort to help you to get a footing in the industry.

HOW DID ATC PREPARE YOU FOR YOUR CAREER?

At ATC I was exposed to rigorous training in career-centered skills that were very relevant to my employer.

MY STORY...

I attended ATC in the midst of the COVID pandemic. Initially my program was fully online, which was ideal since I worked part-time and had three kids at home doing online school. It was quite challenging, but I was determined to complete my program. It was a no-brainer. I would have a new career in a year that would pay me a decent salary. Later in the school year when we started going on campus two to three days a week, it was great to finally meet my instructor and classmates in person, building positive and lasting relationships.

WHAT SHOULD FUTURE STUDENTS KNOW ABOUT ATC?

ATC offers a practical, hands-on experience from dedicated instructors in a safe and professional environment. You are guaranteed to be ready for the job market at the end of your program.

DID YOU CONTINUE YOUR EDUCATION AFTER ATC?

I continued my studies after ATC and completed certifications in CCA and RHIT. I have a rewarding career in the field of healthcare, thanks to the strong foundation acquired at ATC.
