

ALUMNI

Spotlight

PROGRAM

Accounting Operations

GRADUATION DATE

June 6, 2023

WHY DID YOU CHOOSE ATC?

Because of its strong reputation and the positive feedback I heard about the quality of its programs and student support.

HOW IS ATC DIFFERENT FROM OTHER SCHOOLS?

ATC offers a welcoming and engaging classroom environment. The instructors are knowledgeable and genuinely invested in student success. Programs focus on practical, real-world skills that prepare students for the workforce.

HOW DID ATC PREPARE YOU FOR YOUR CAREER?

ATC provided hands-on, practical accounting training that directly applies to real-world work environments. The coursework enhanced my technical skills, attention to detail, and understanding of professional standards.

MY STORY...

When I left my home country and arrived in the United States in November 2021, I felt lost and uncertain about whether to change careers or stick to what I had done before. The future seemed unpredictable as I started this new chapter. Just a month later, I joined the ATC ESOL class, where Teacher Matthew Gehron and the warm welcome from the class made a lasting impression on me.

That experience marked a turning point, giving me renewed hope and the courage to pursue new opportunities and shape my future. After completing ESOL, I enrolled in Accounting Operations as part of the IET Program. I began accounting classes on August 16, 2022. It was my first time studying abroad and learning in a foreign language, alongside classmates from diverse backgrounds. Although I anticipated challenges, the experience was both enjoyable and rewarding. My instructor was very supportive, patient, and caring. I gained many new skills and a thorough understanding of accounting principles and procedures. Since 2023, I have been working as a bookkeeper for the School Board of Broward County.

WHAT SHOULD FUTURE STUDENTS KNOW ABOUT ATC?

Future students should know that ATC is a supportive school where instructors genuinely care about helping you succeed and prepare for your career.

DID YOU CONTINUE YOUR EDUCATION AFTER ATC?

Of course! I have transferred my credits and continued my education in accounting at Boward College to develop my skills further and advance my career.
